

Scenario: 12kWh - Energy Flows Analysis

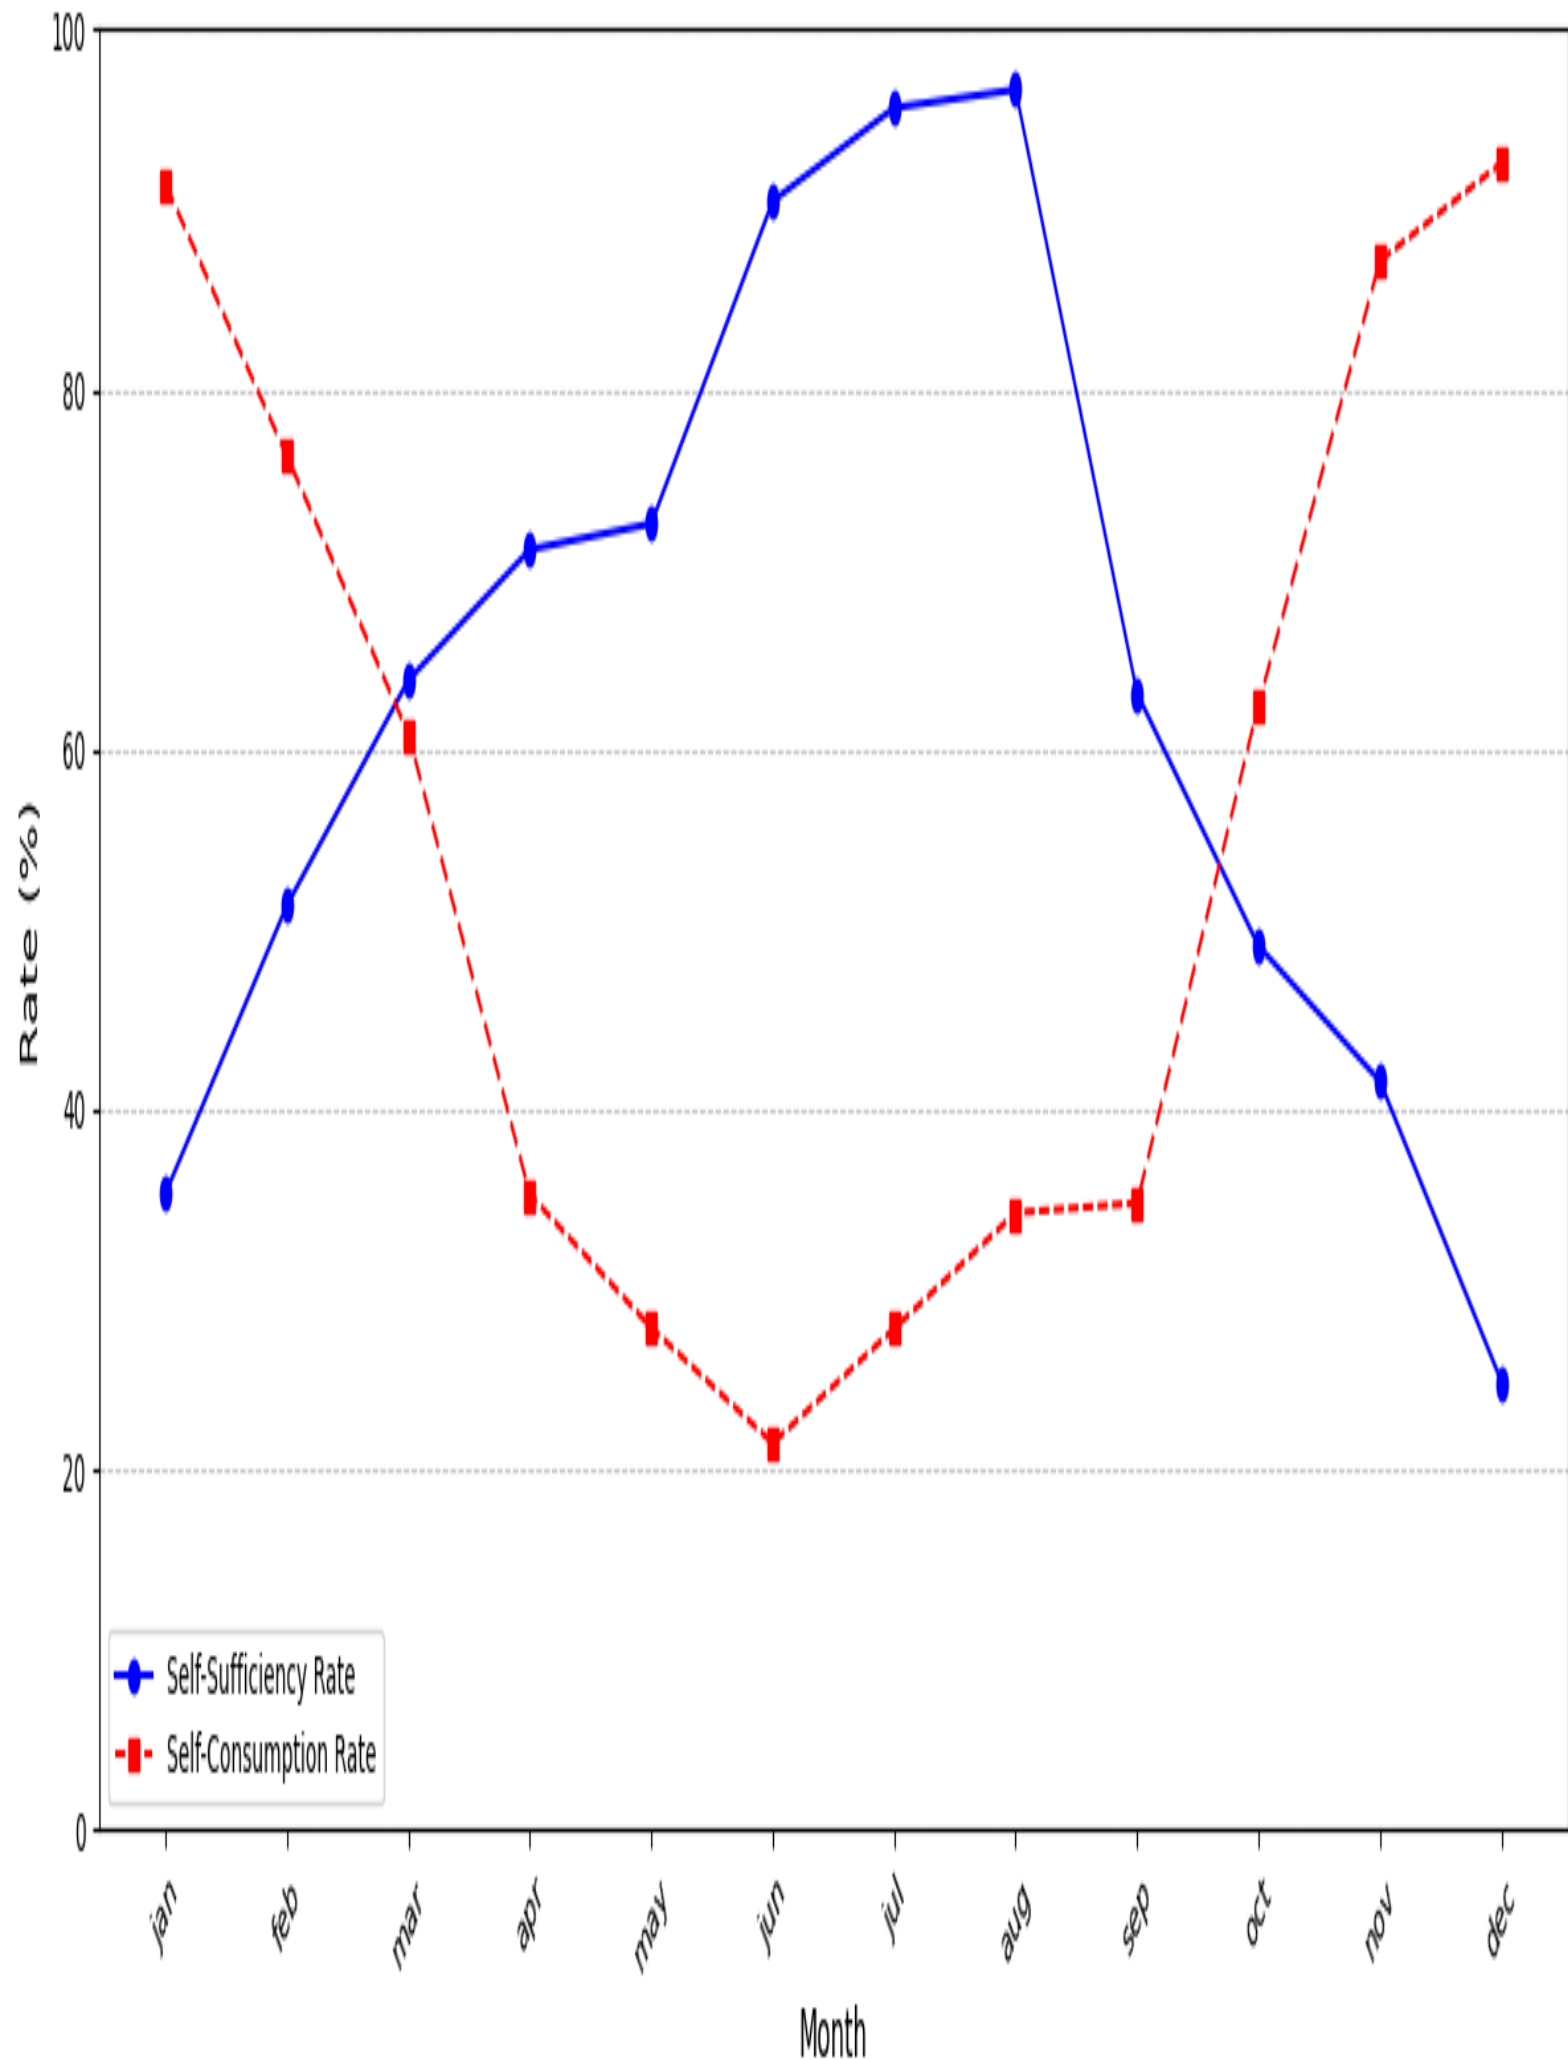

Grid and PV Interaction

Battery Performance

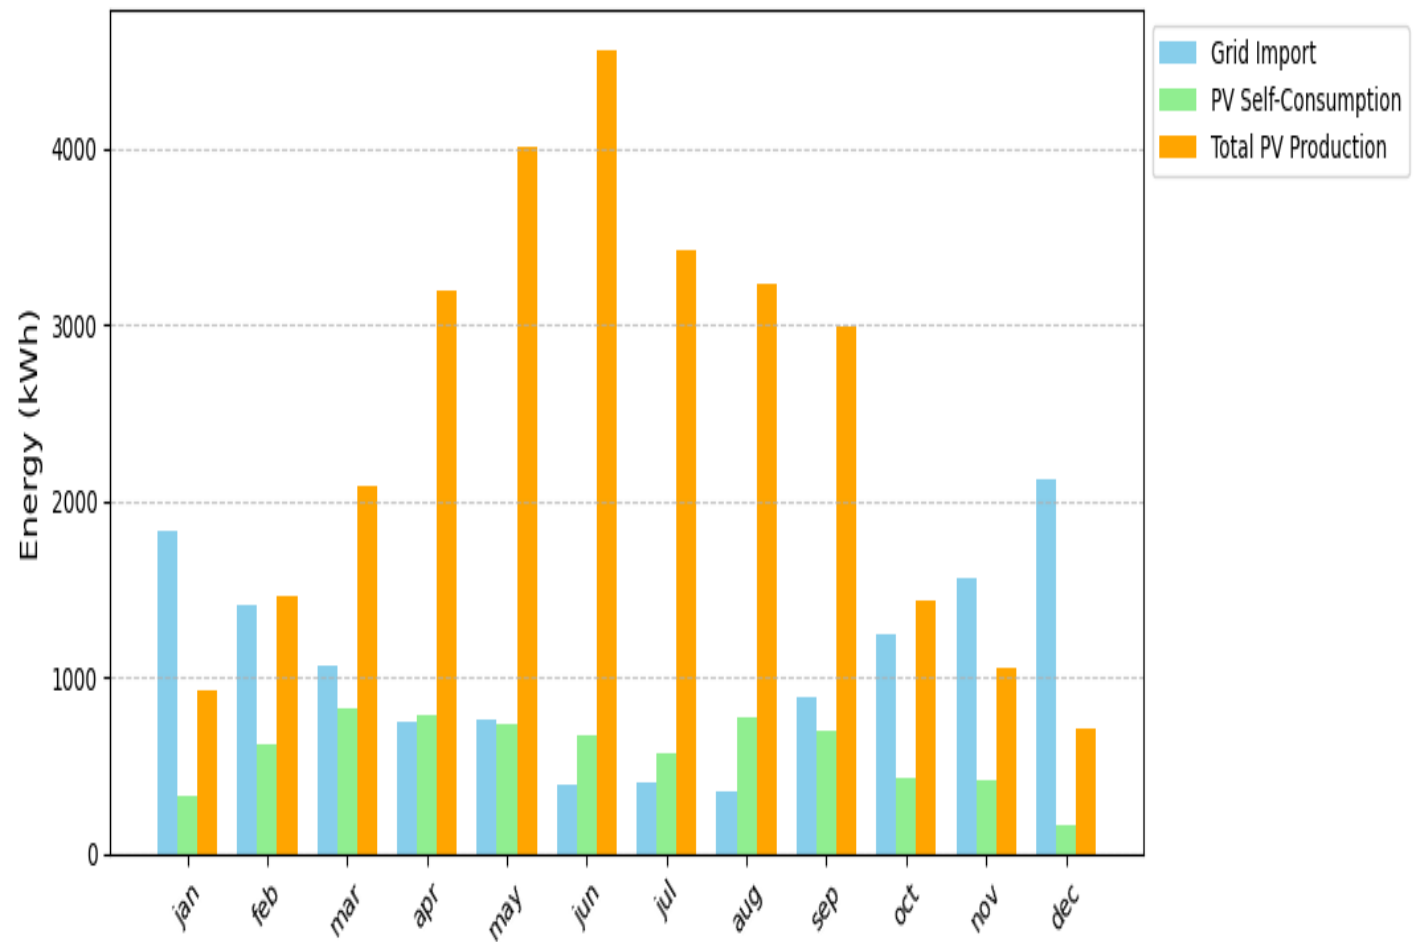

Scenario: 12kWh - Performance Rates

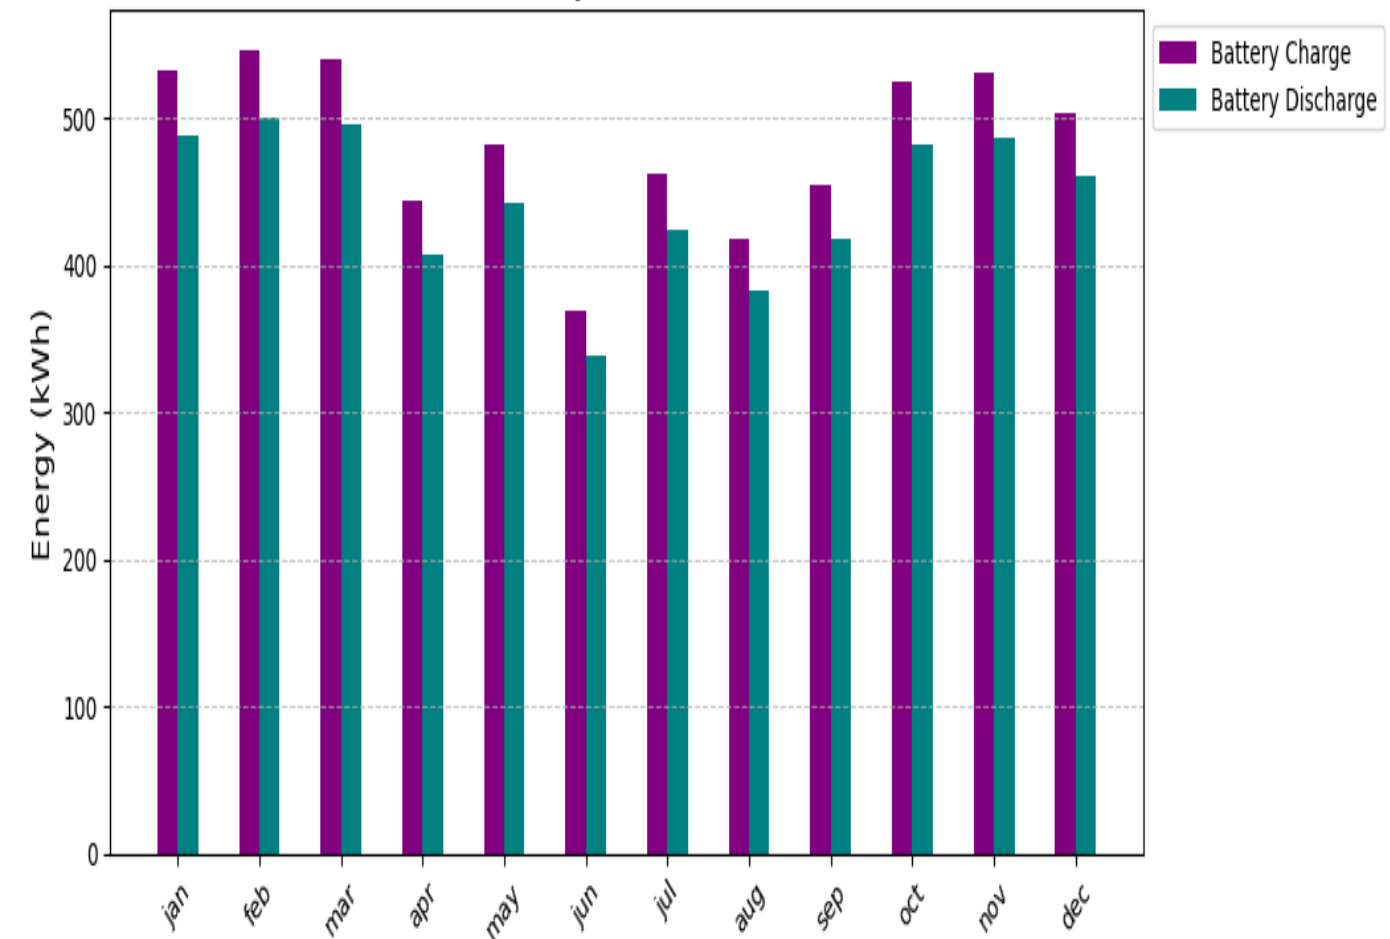

Scenario: 15kWh - Energy Flows Analysis

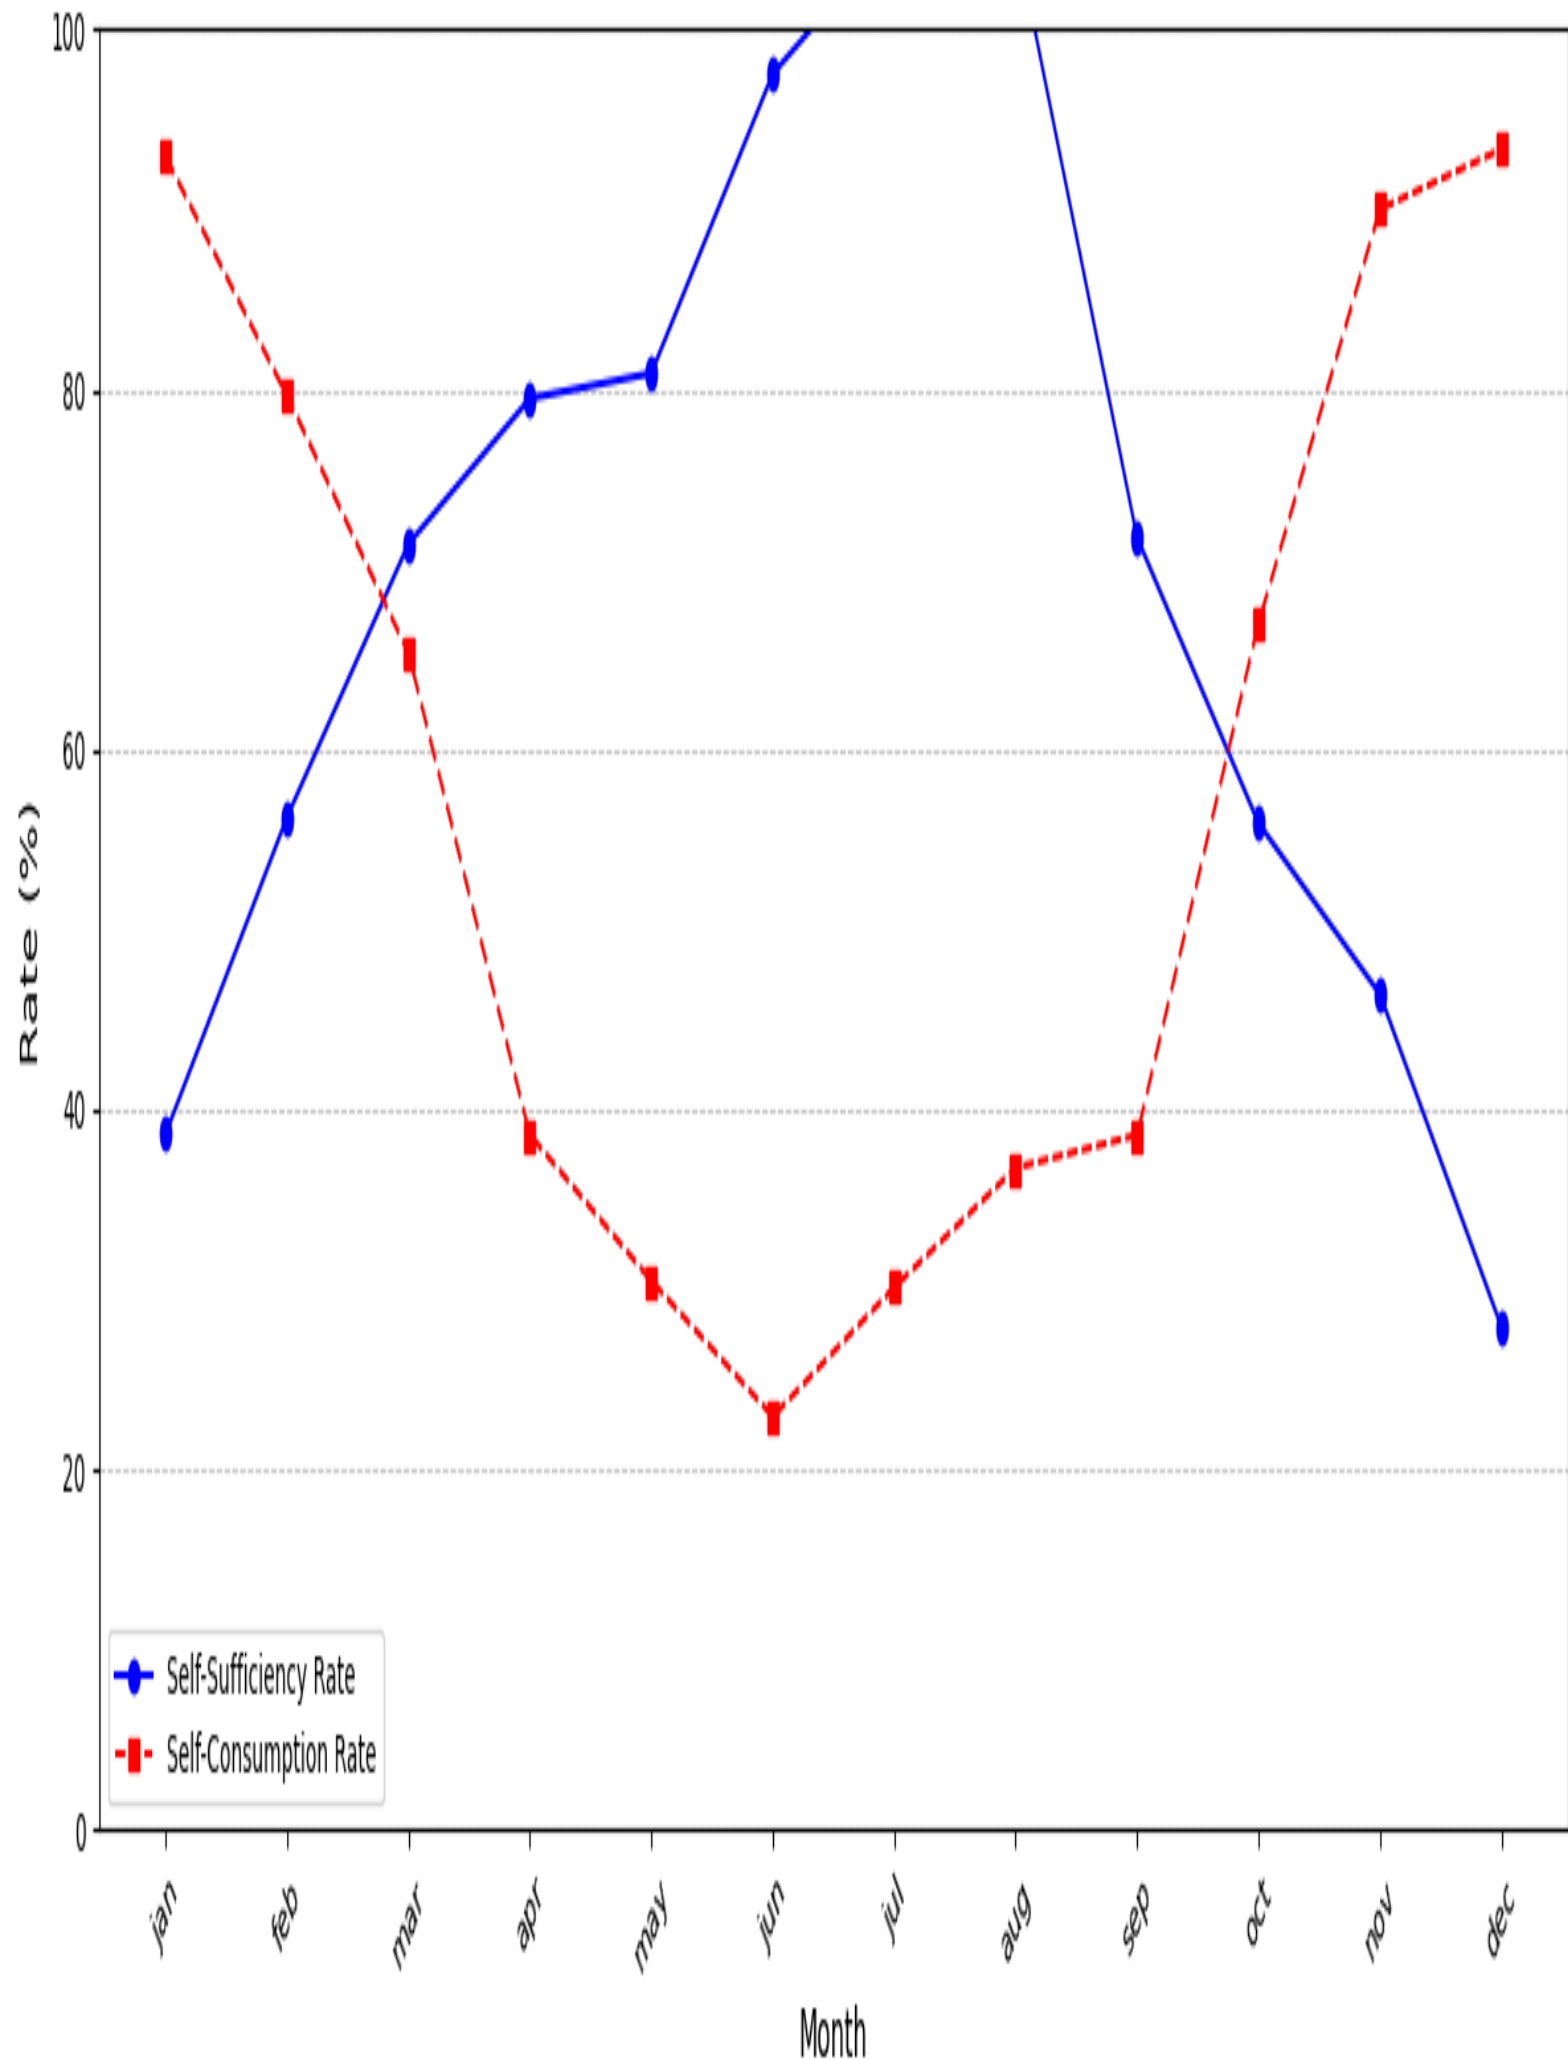

Grid and PV Interaction

Battery Performance

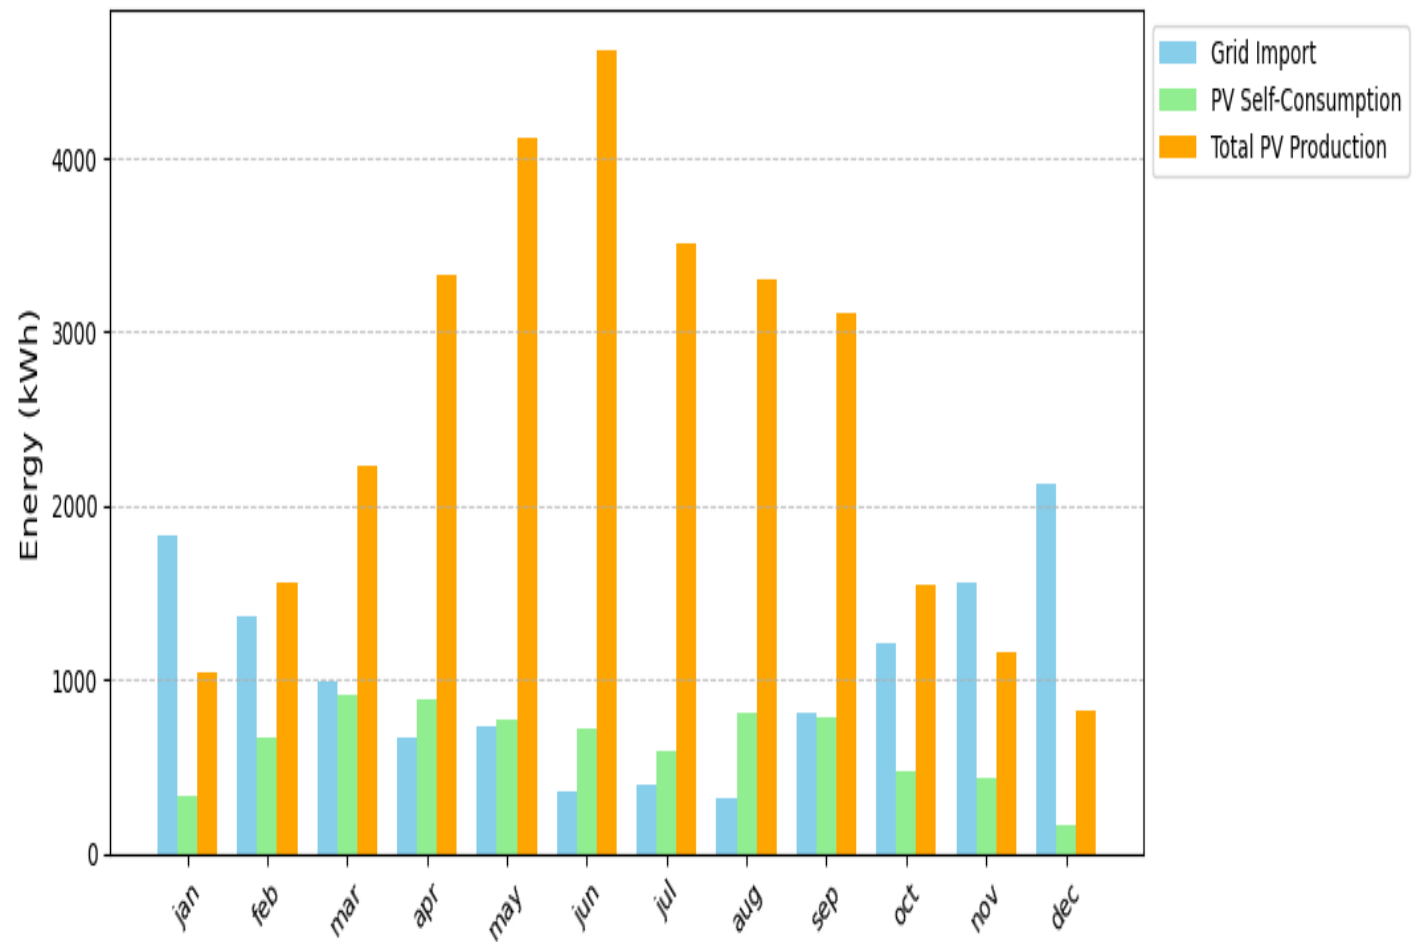

Scenario: 15kWh - Performance Rates

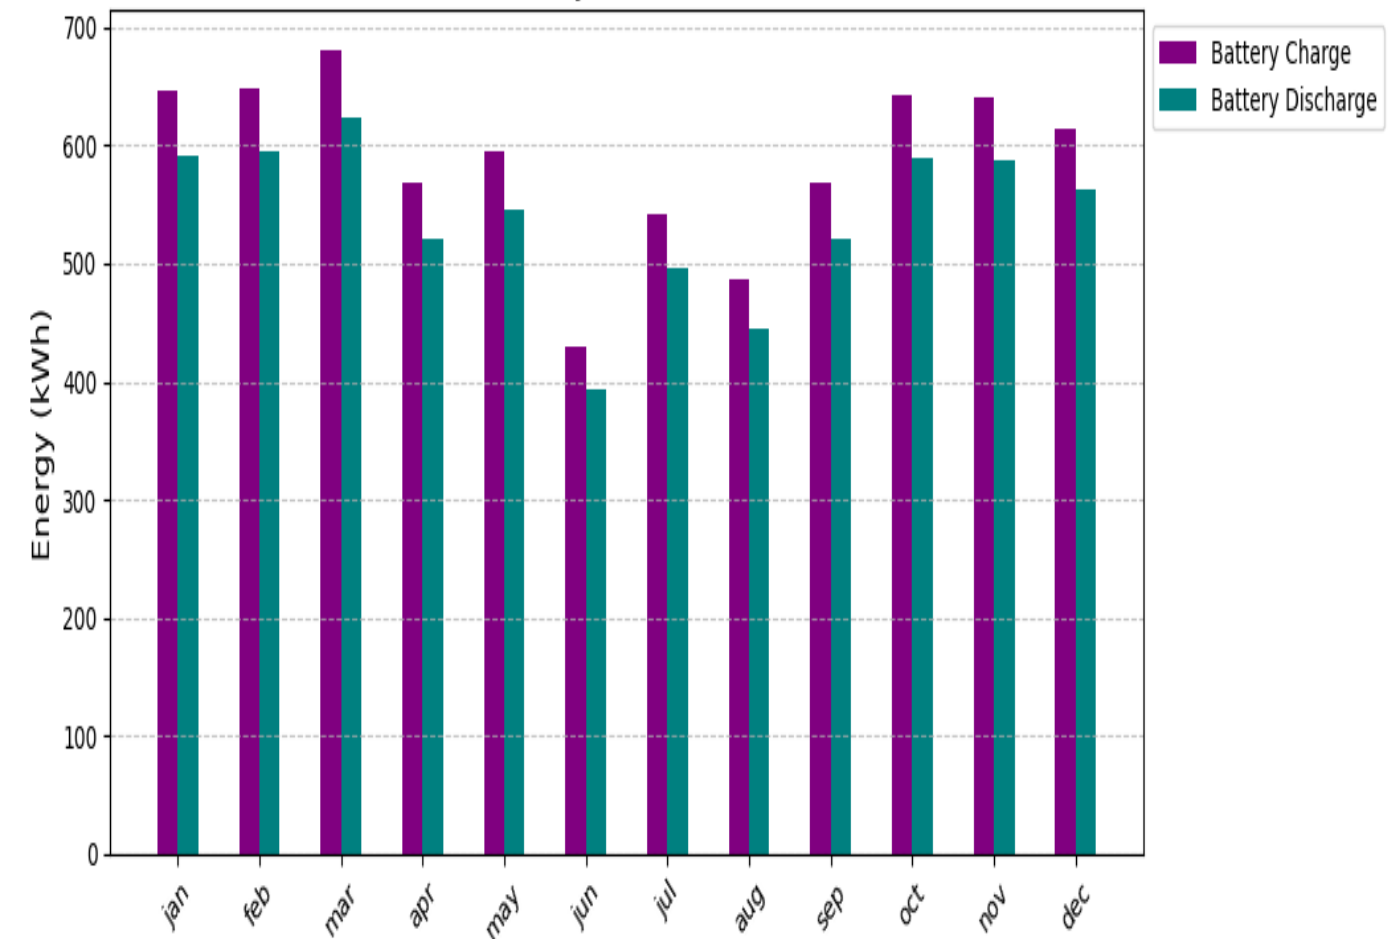

Scenario: 20kWh - Energy Flows Analysis

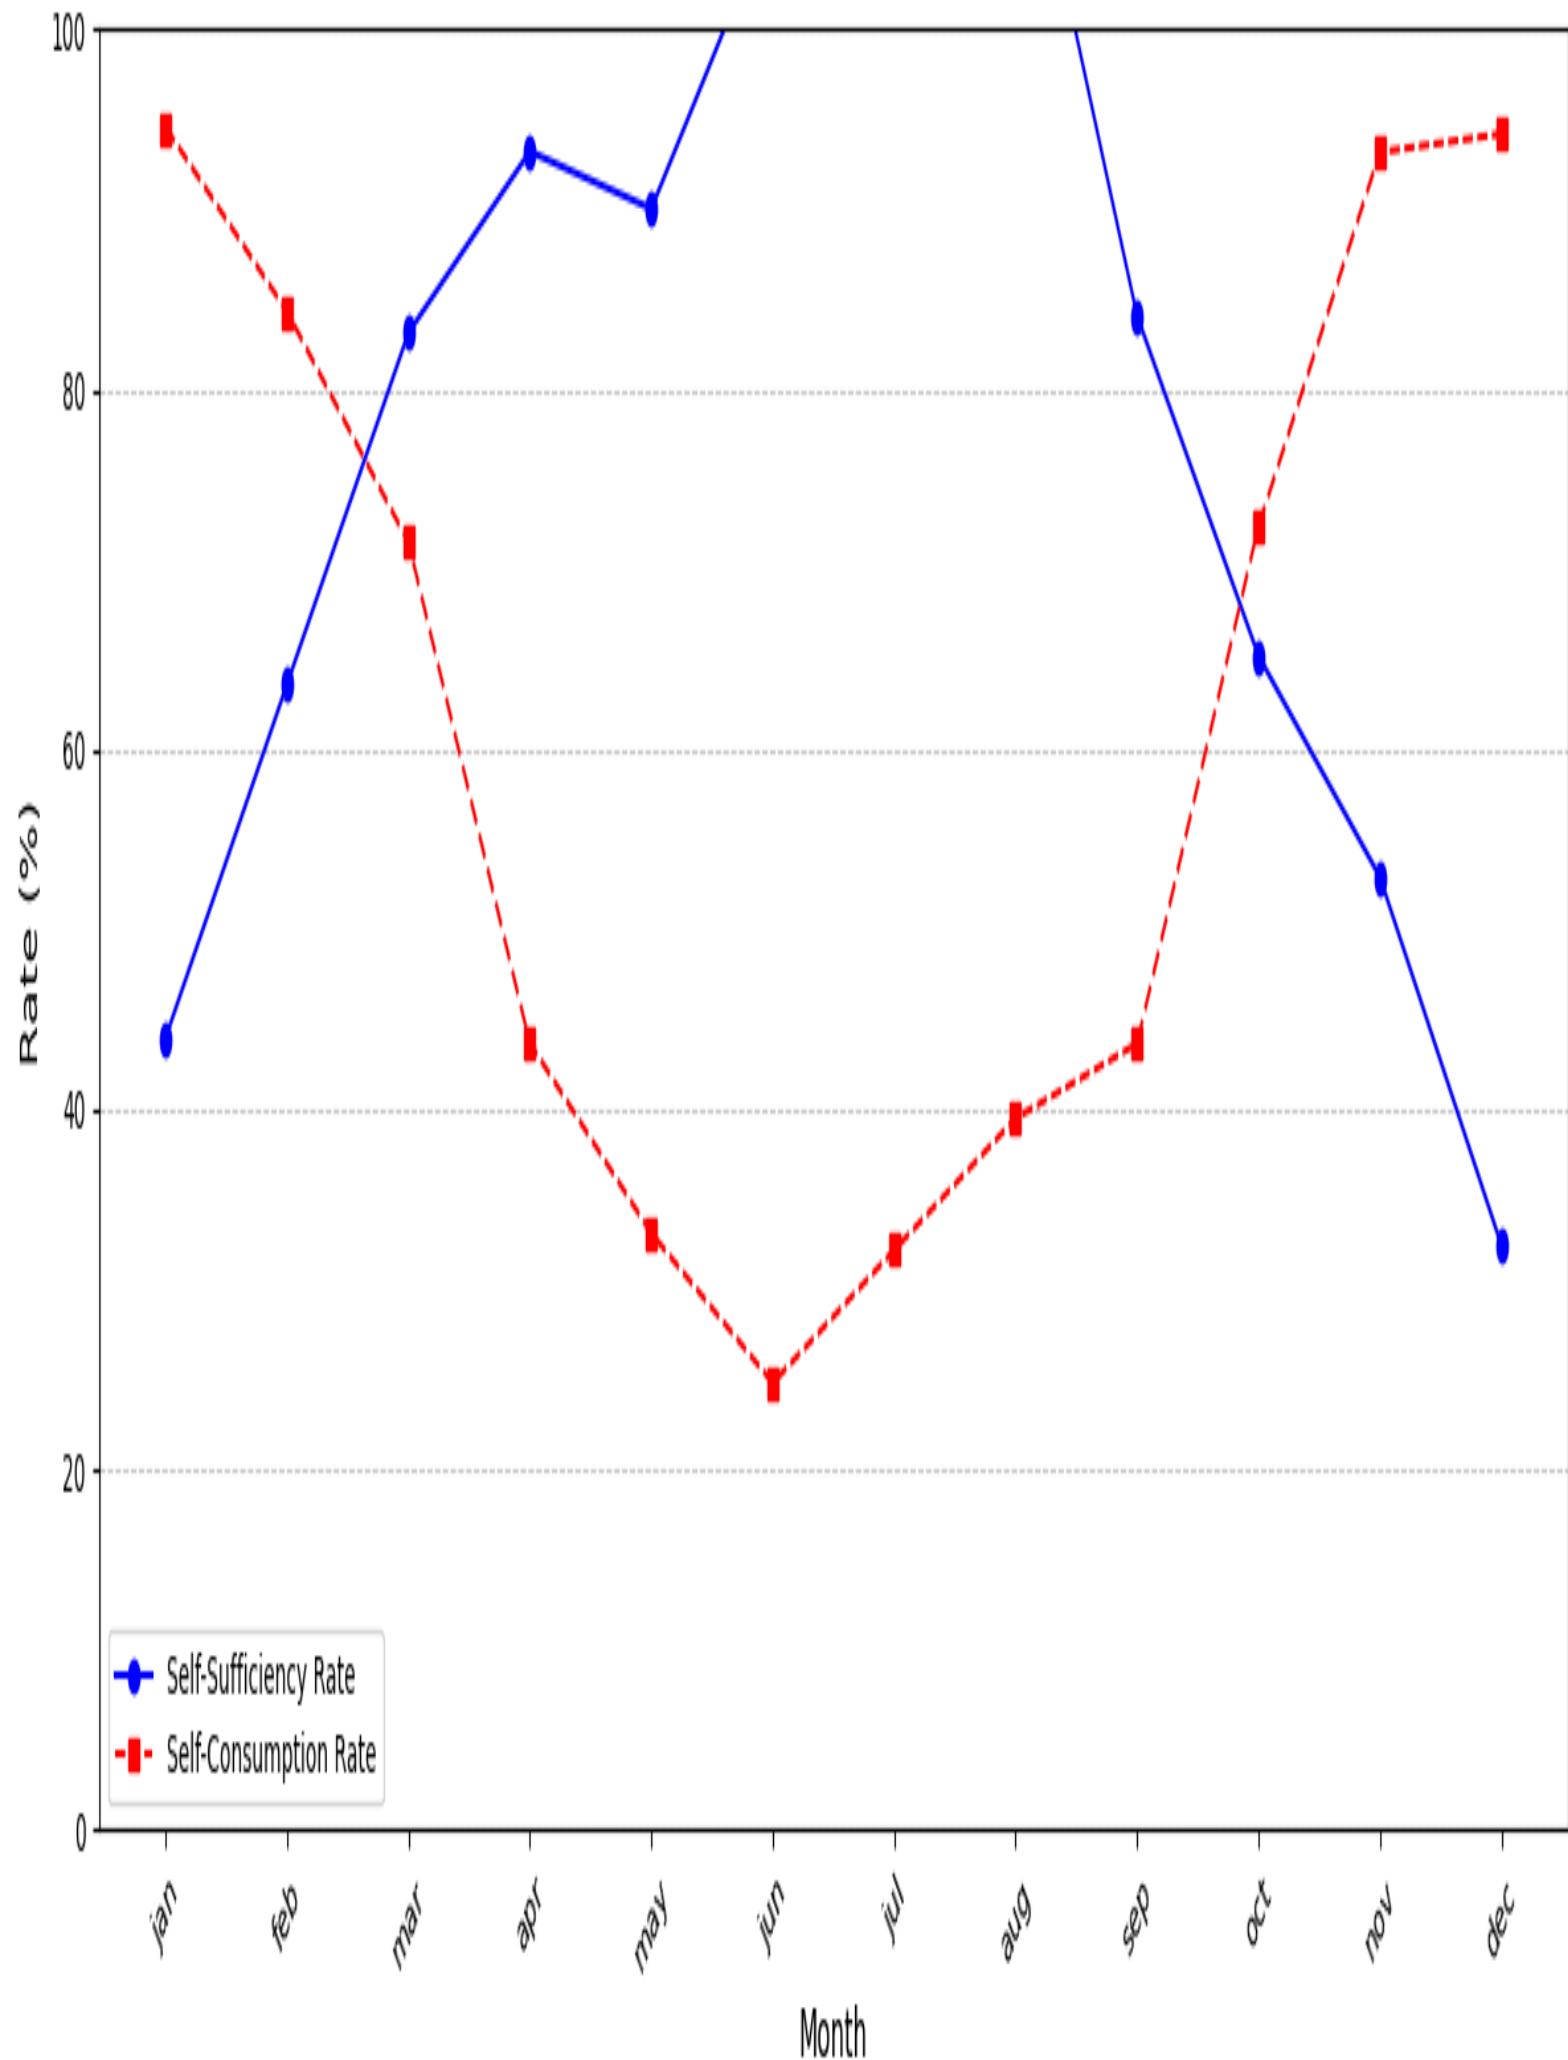

Grid and PV Interaction

Battery Performance

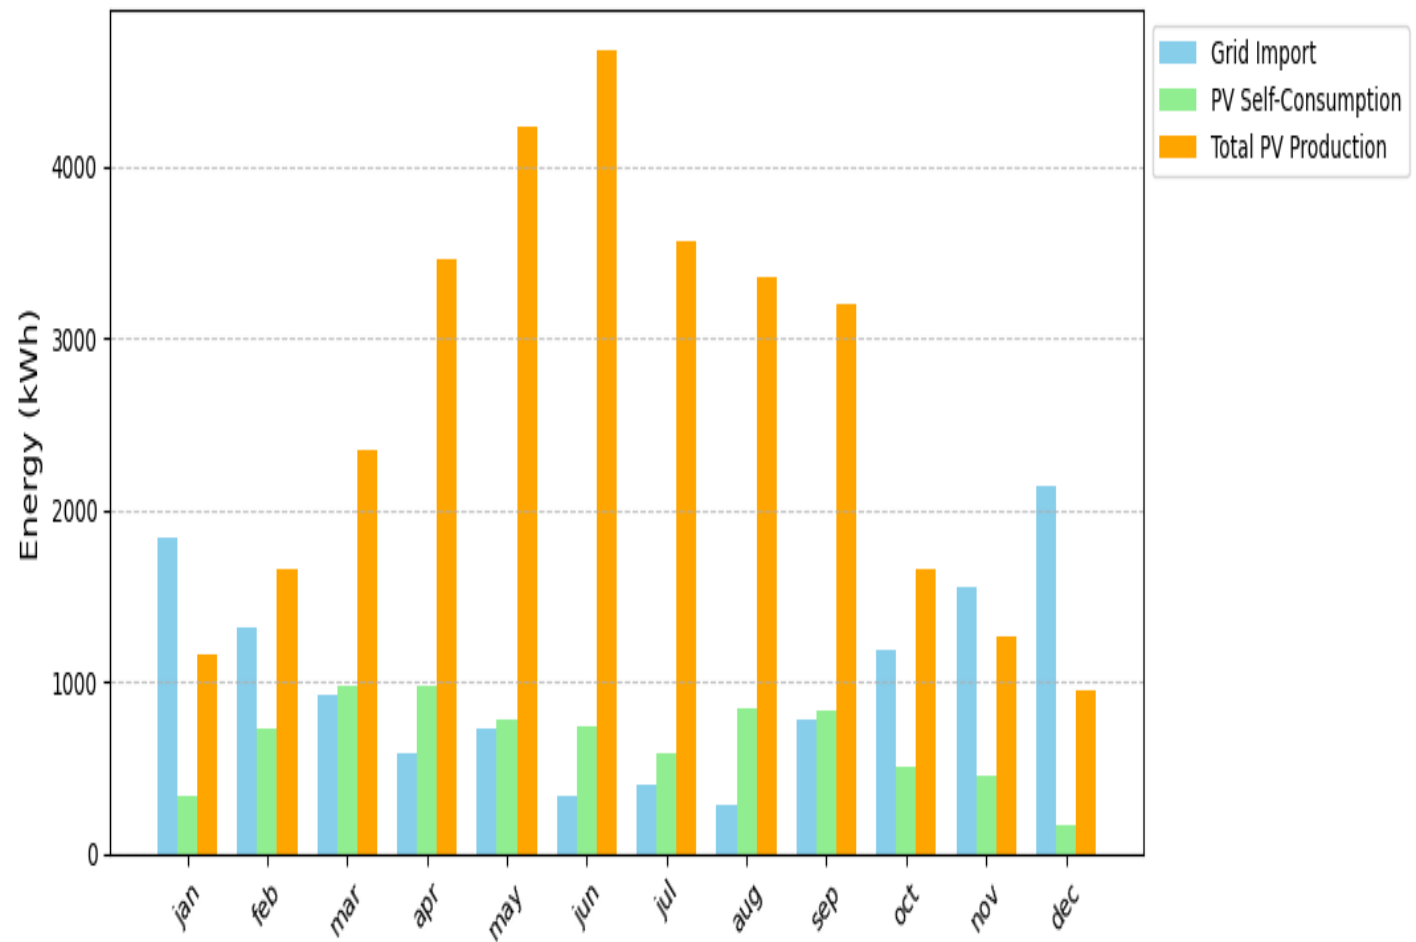

Scenario: 20kWh - Performance Rates

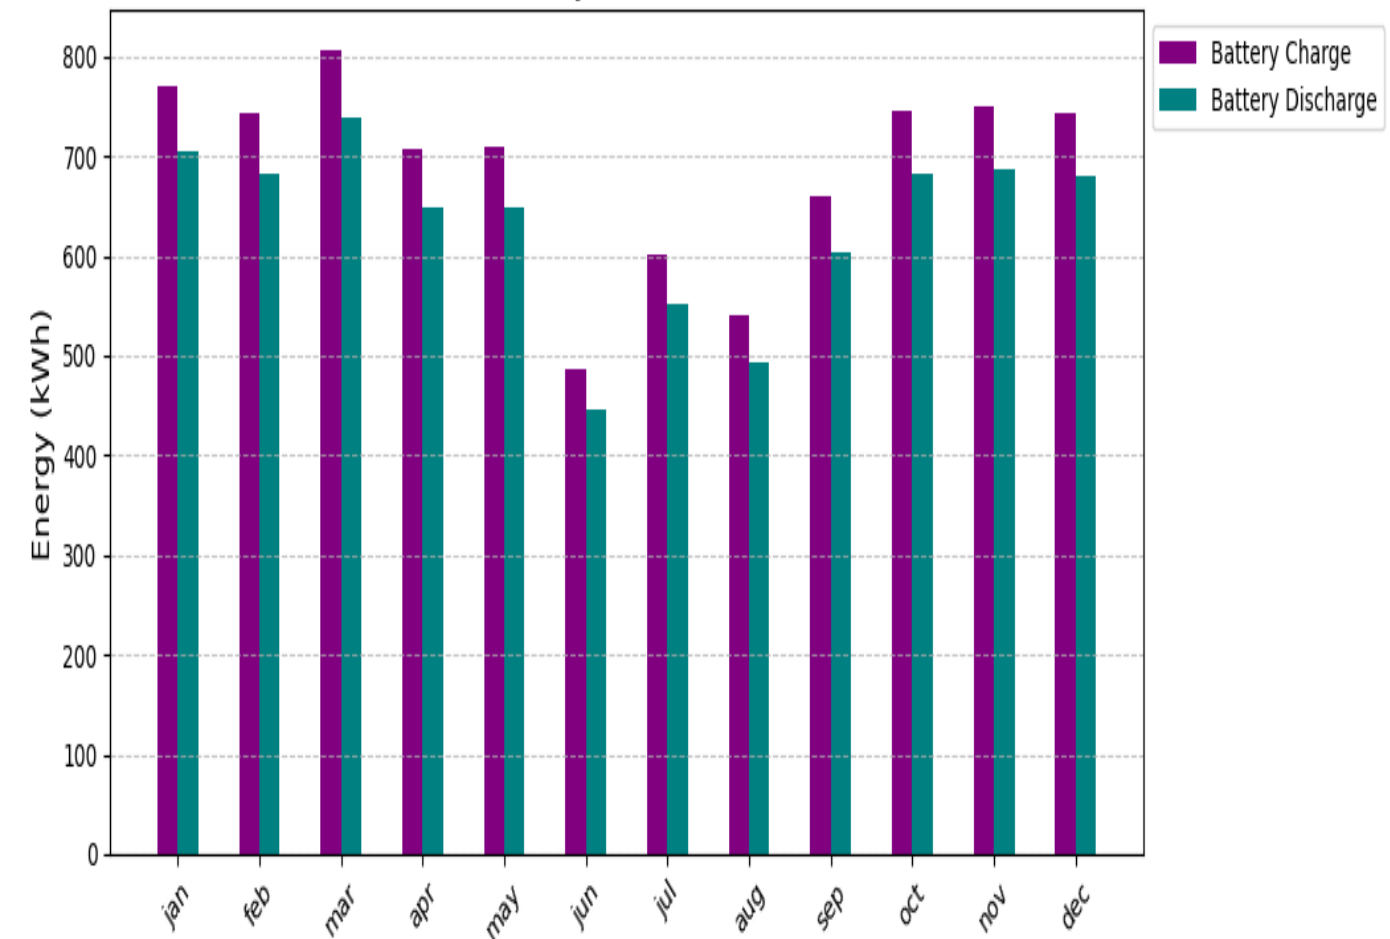

Scenario: 26kWh - Energy Flows Analysis

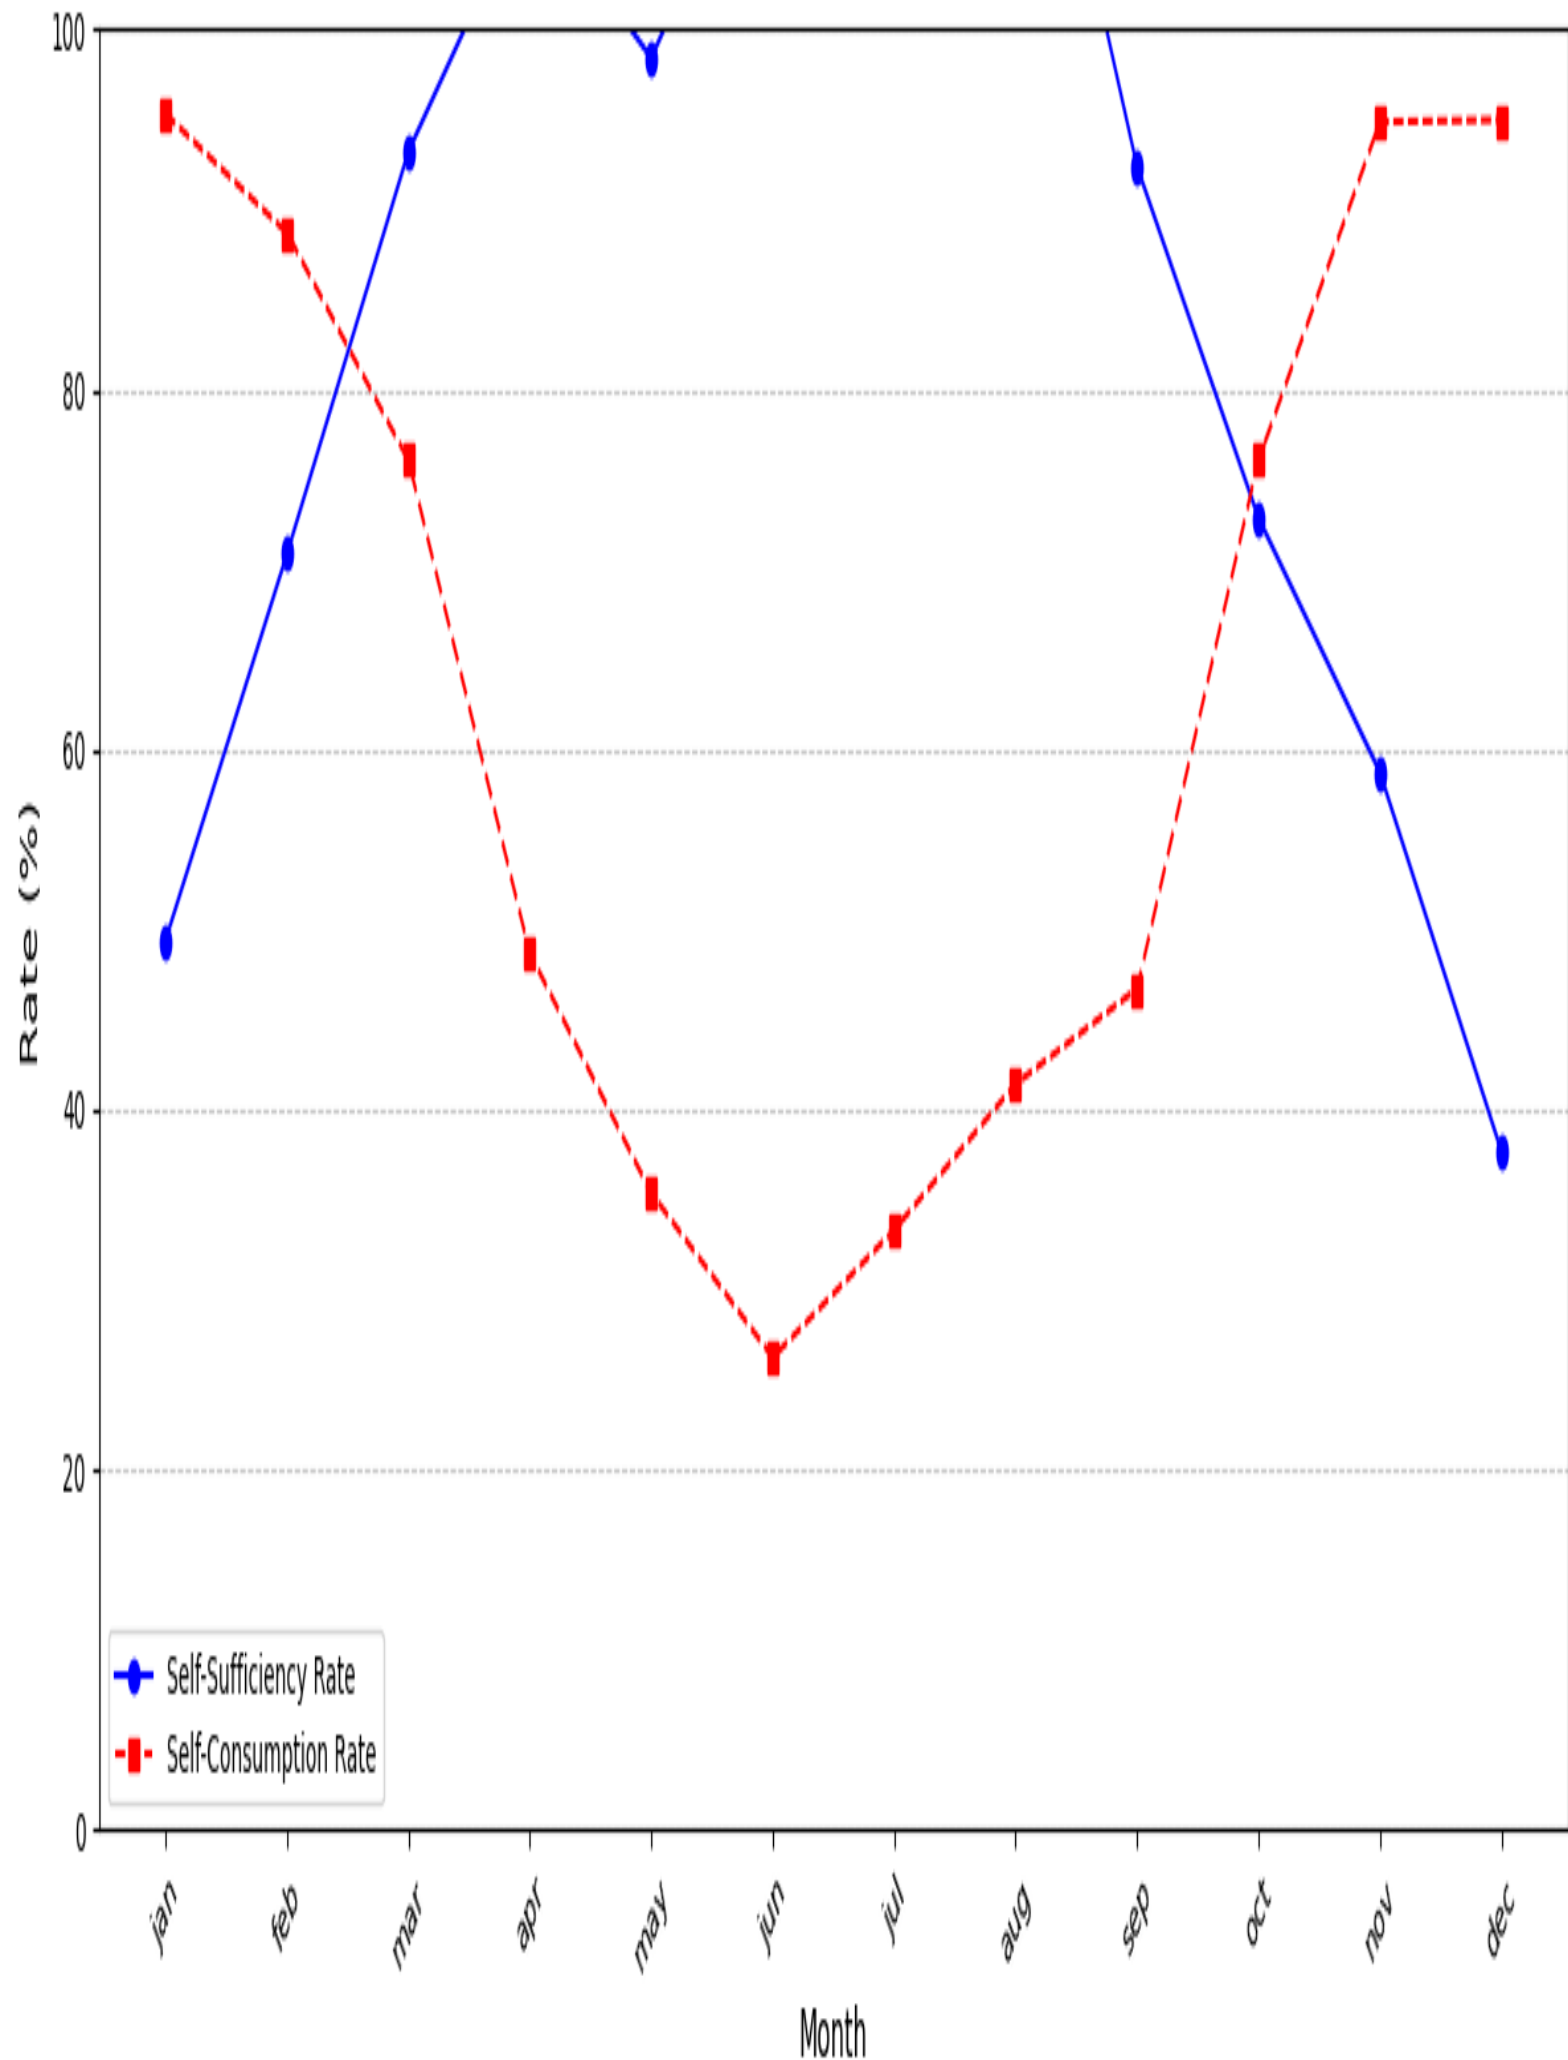

Grid and PV Interaction

Battery Performance

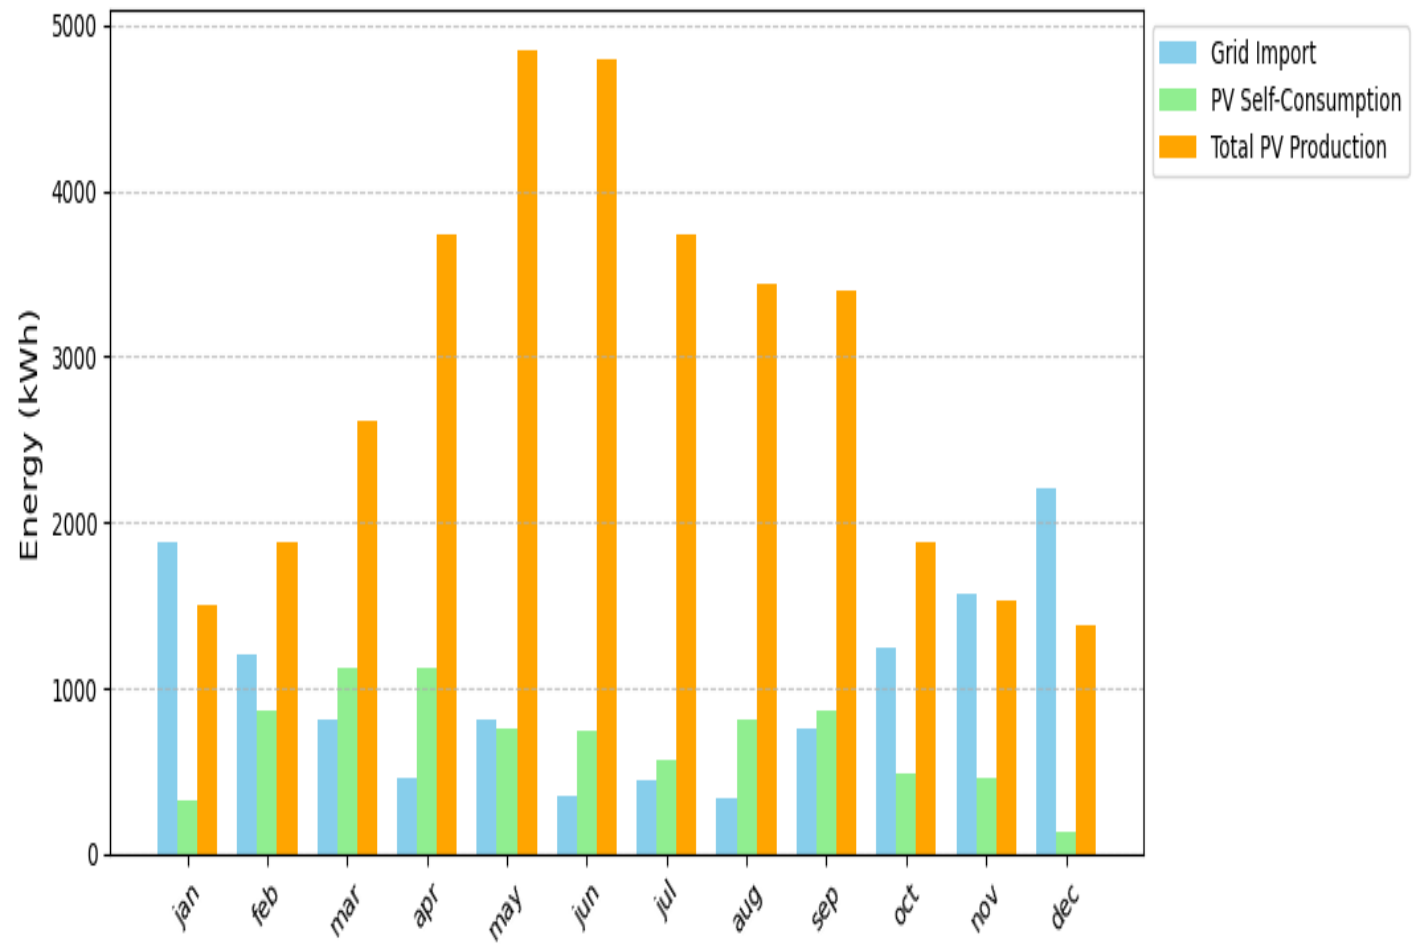

Scenario: 26kWh - Performance Rates

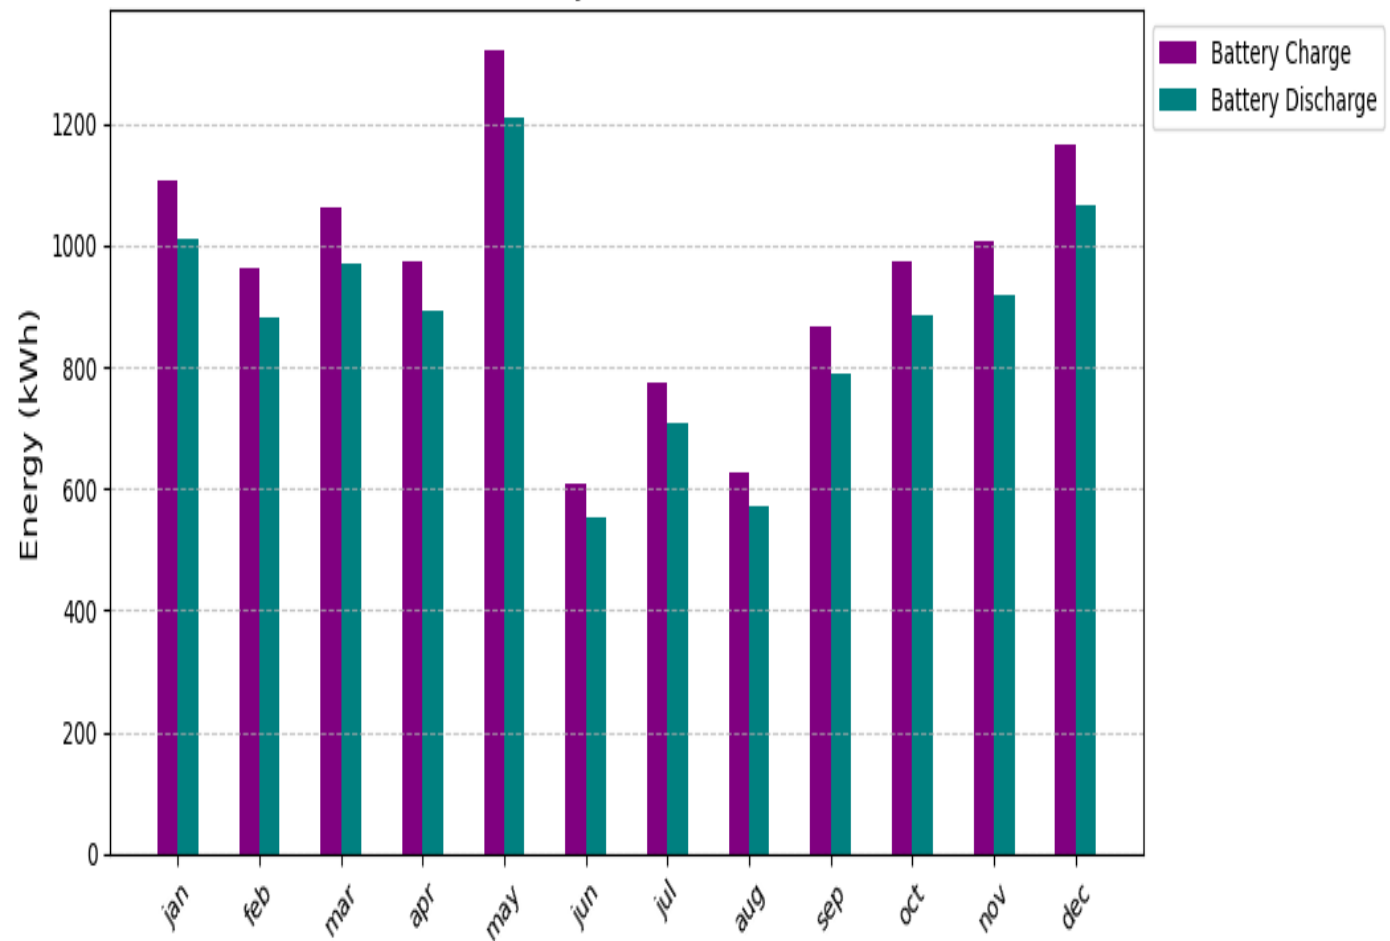

Scenario: 50kWh - Energy Flows Analysis

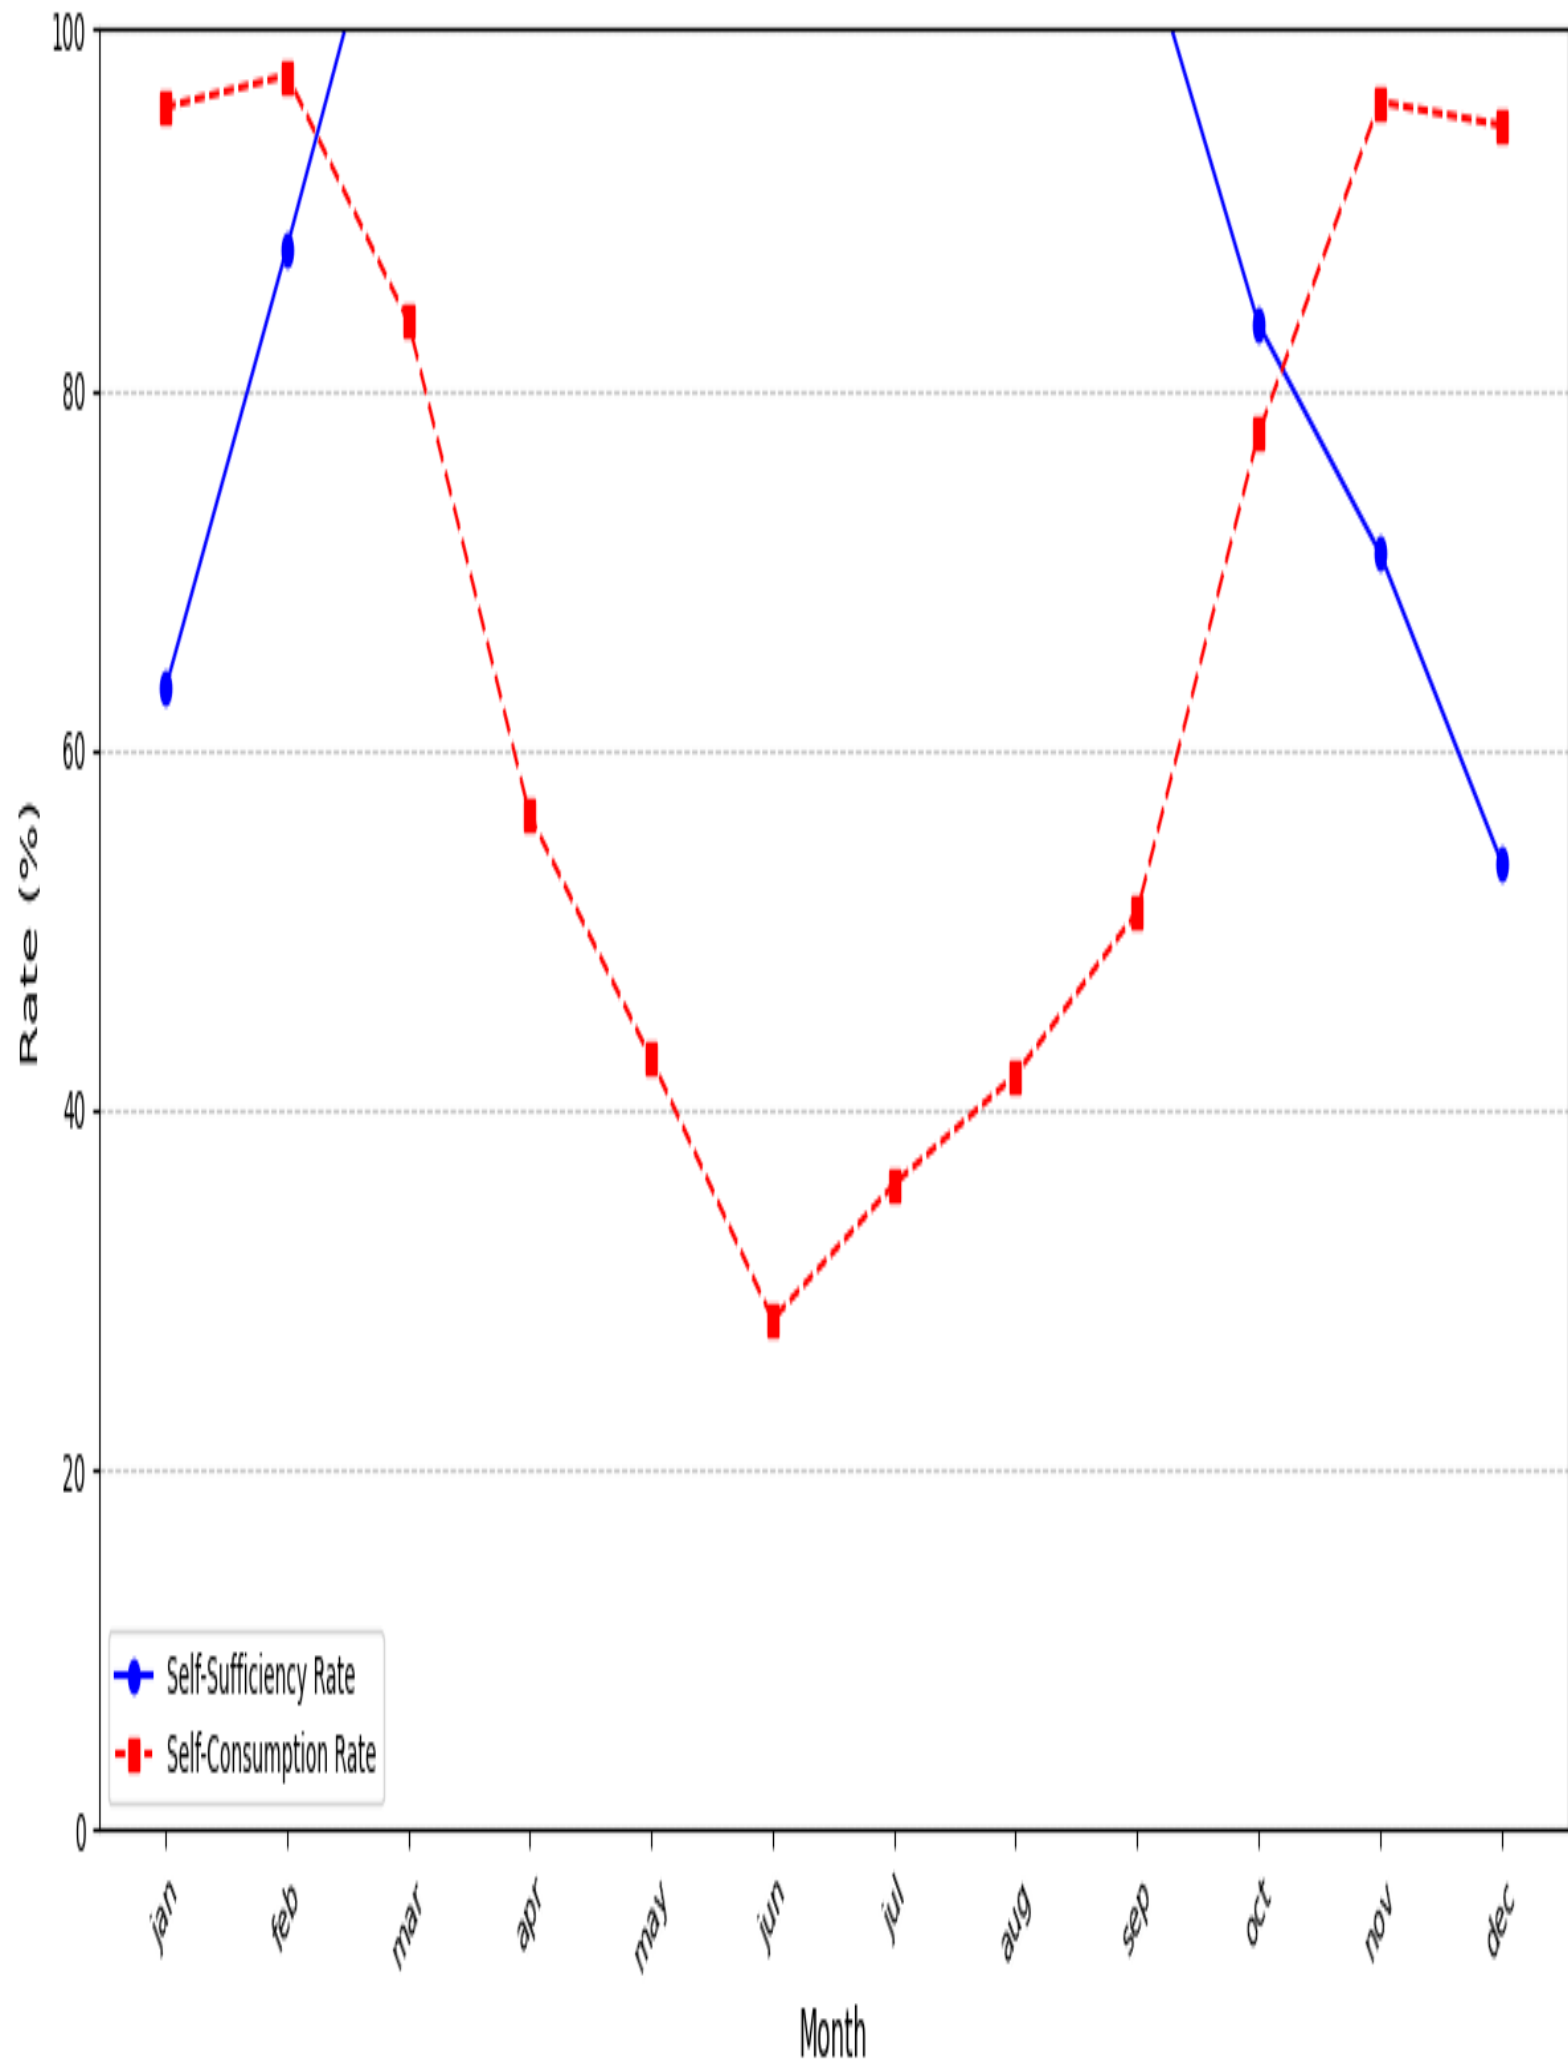

Grid and PV Interaction

Battery Performance

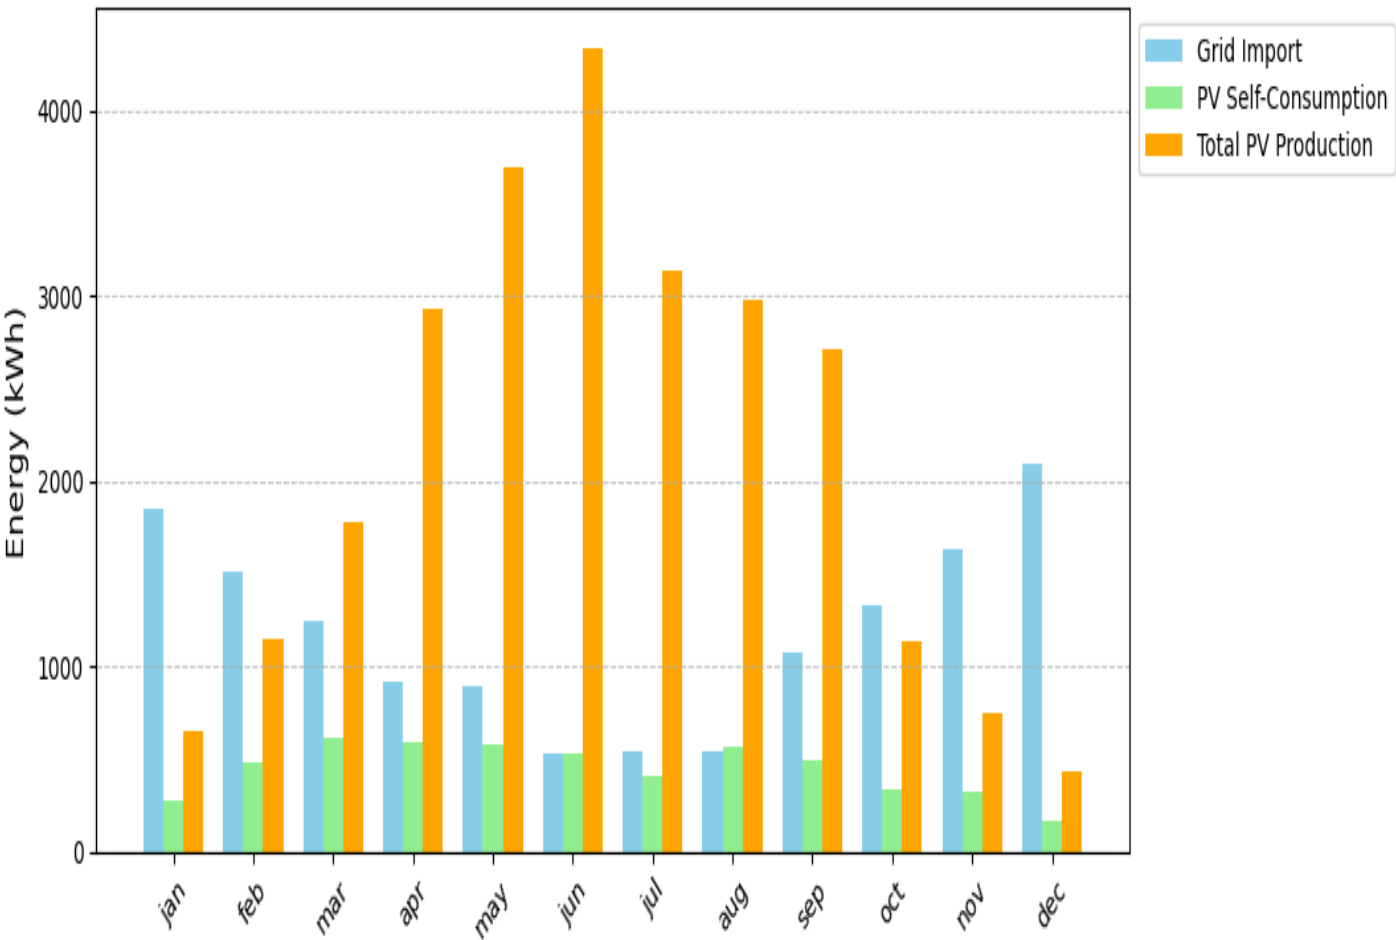

Scenario: 50kWh - Performance Rates

Scenario: 5kWh - Energy Flows Analysis

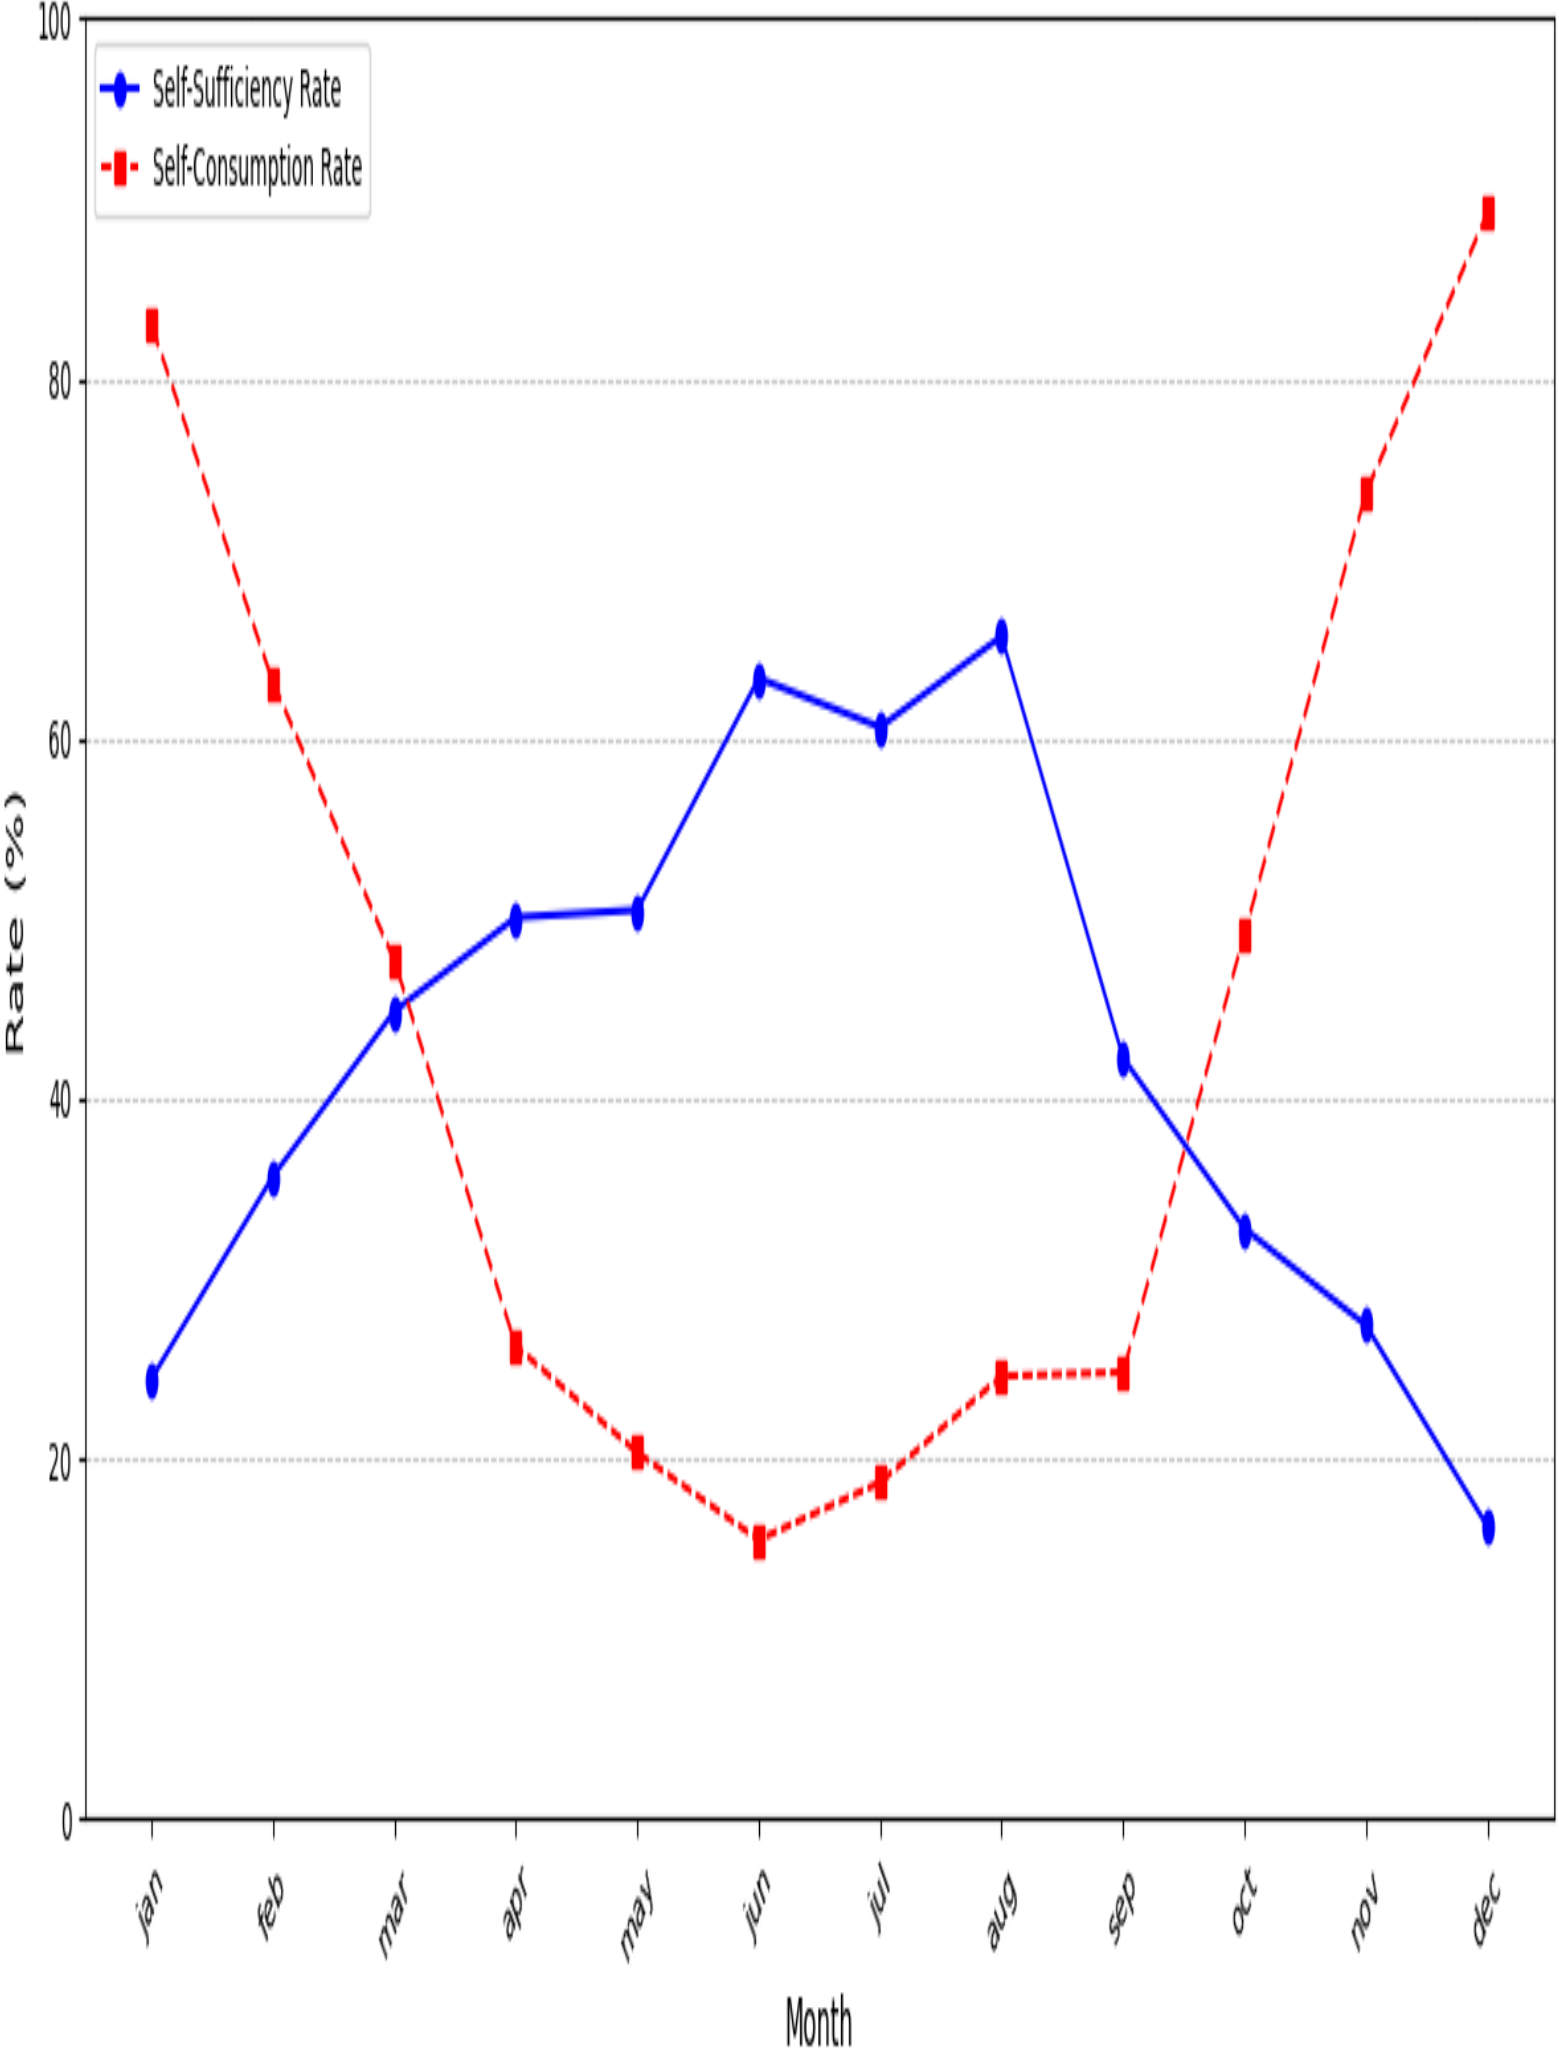

Grid and PV Interaction

Battery Performance

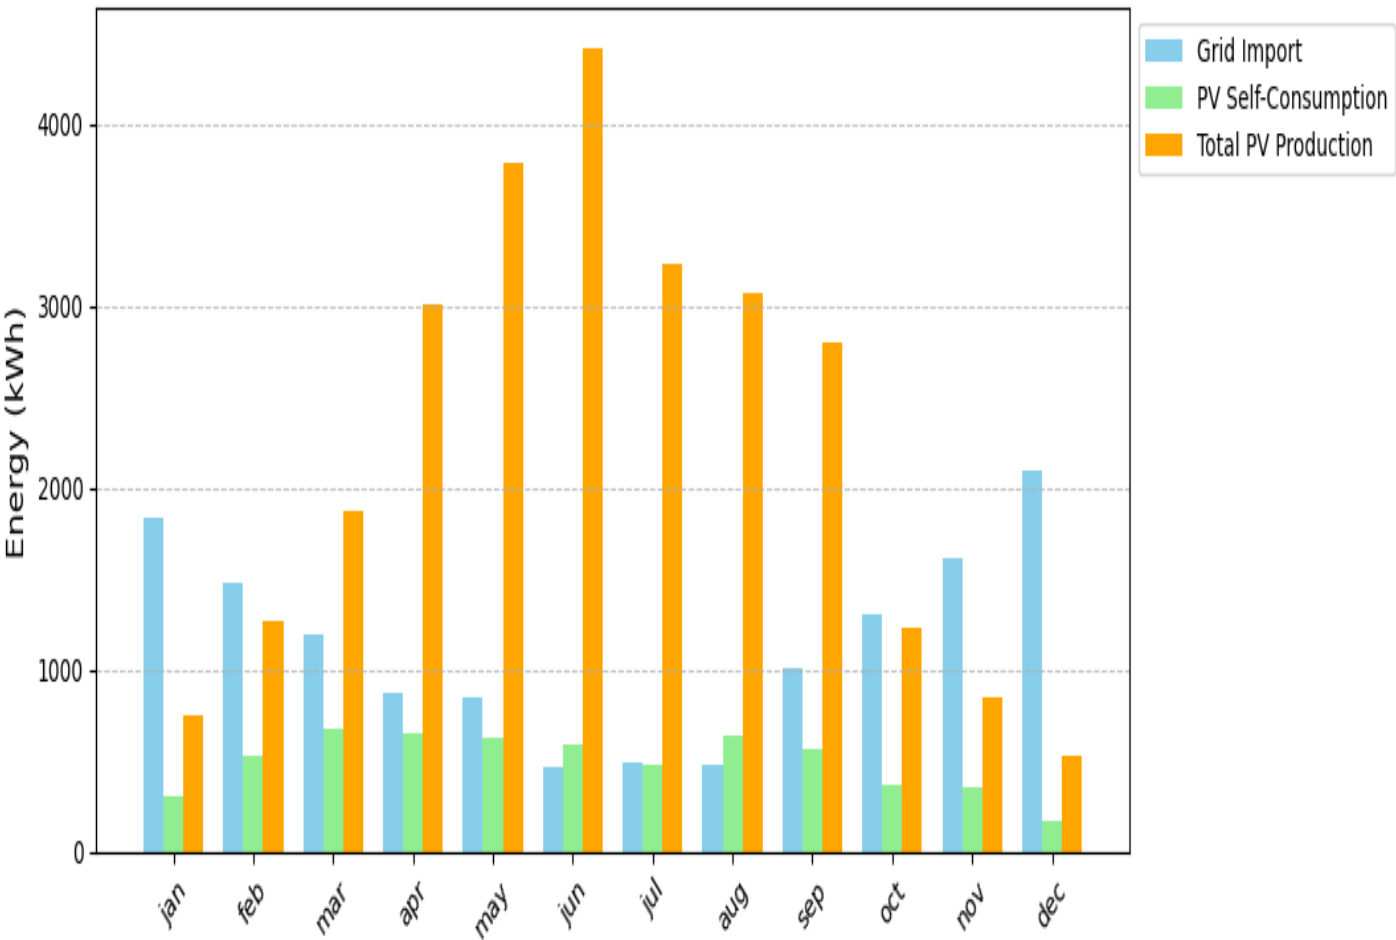

Scenario: 5kWh - Performance Rates

Scenario: 8kWh - Energy Flows Analysis

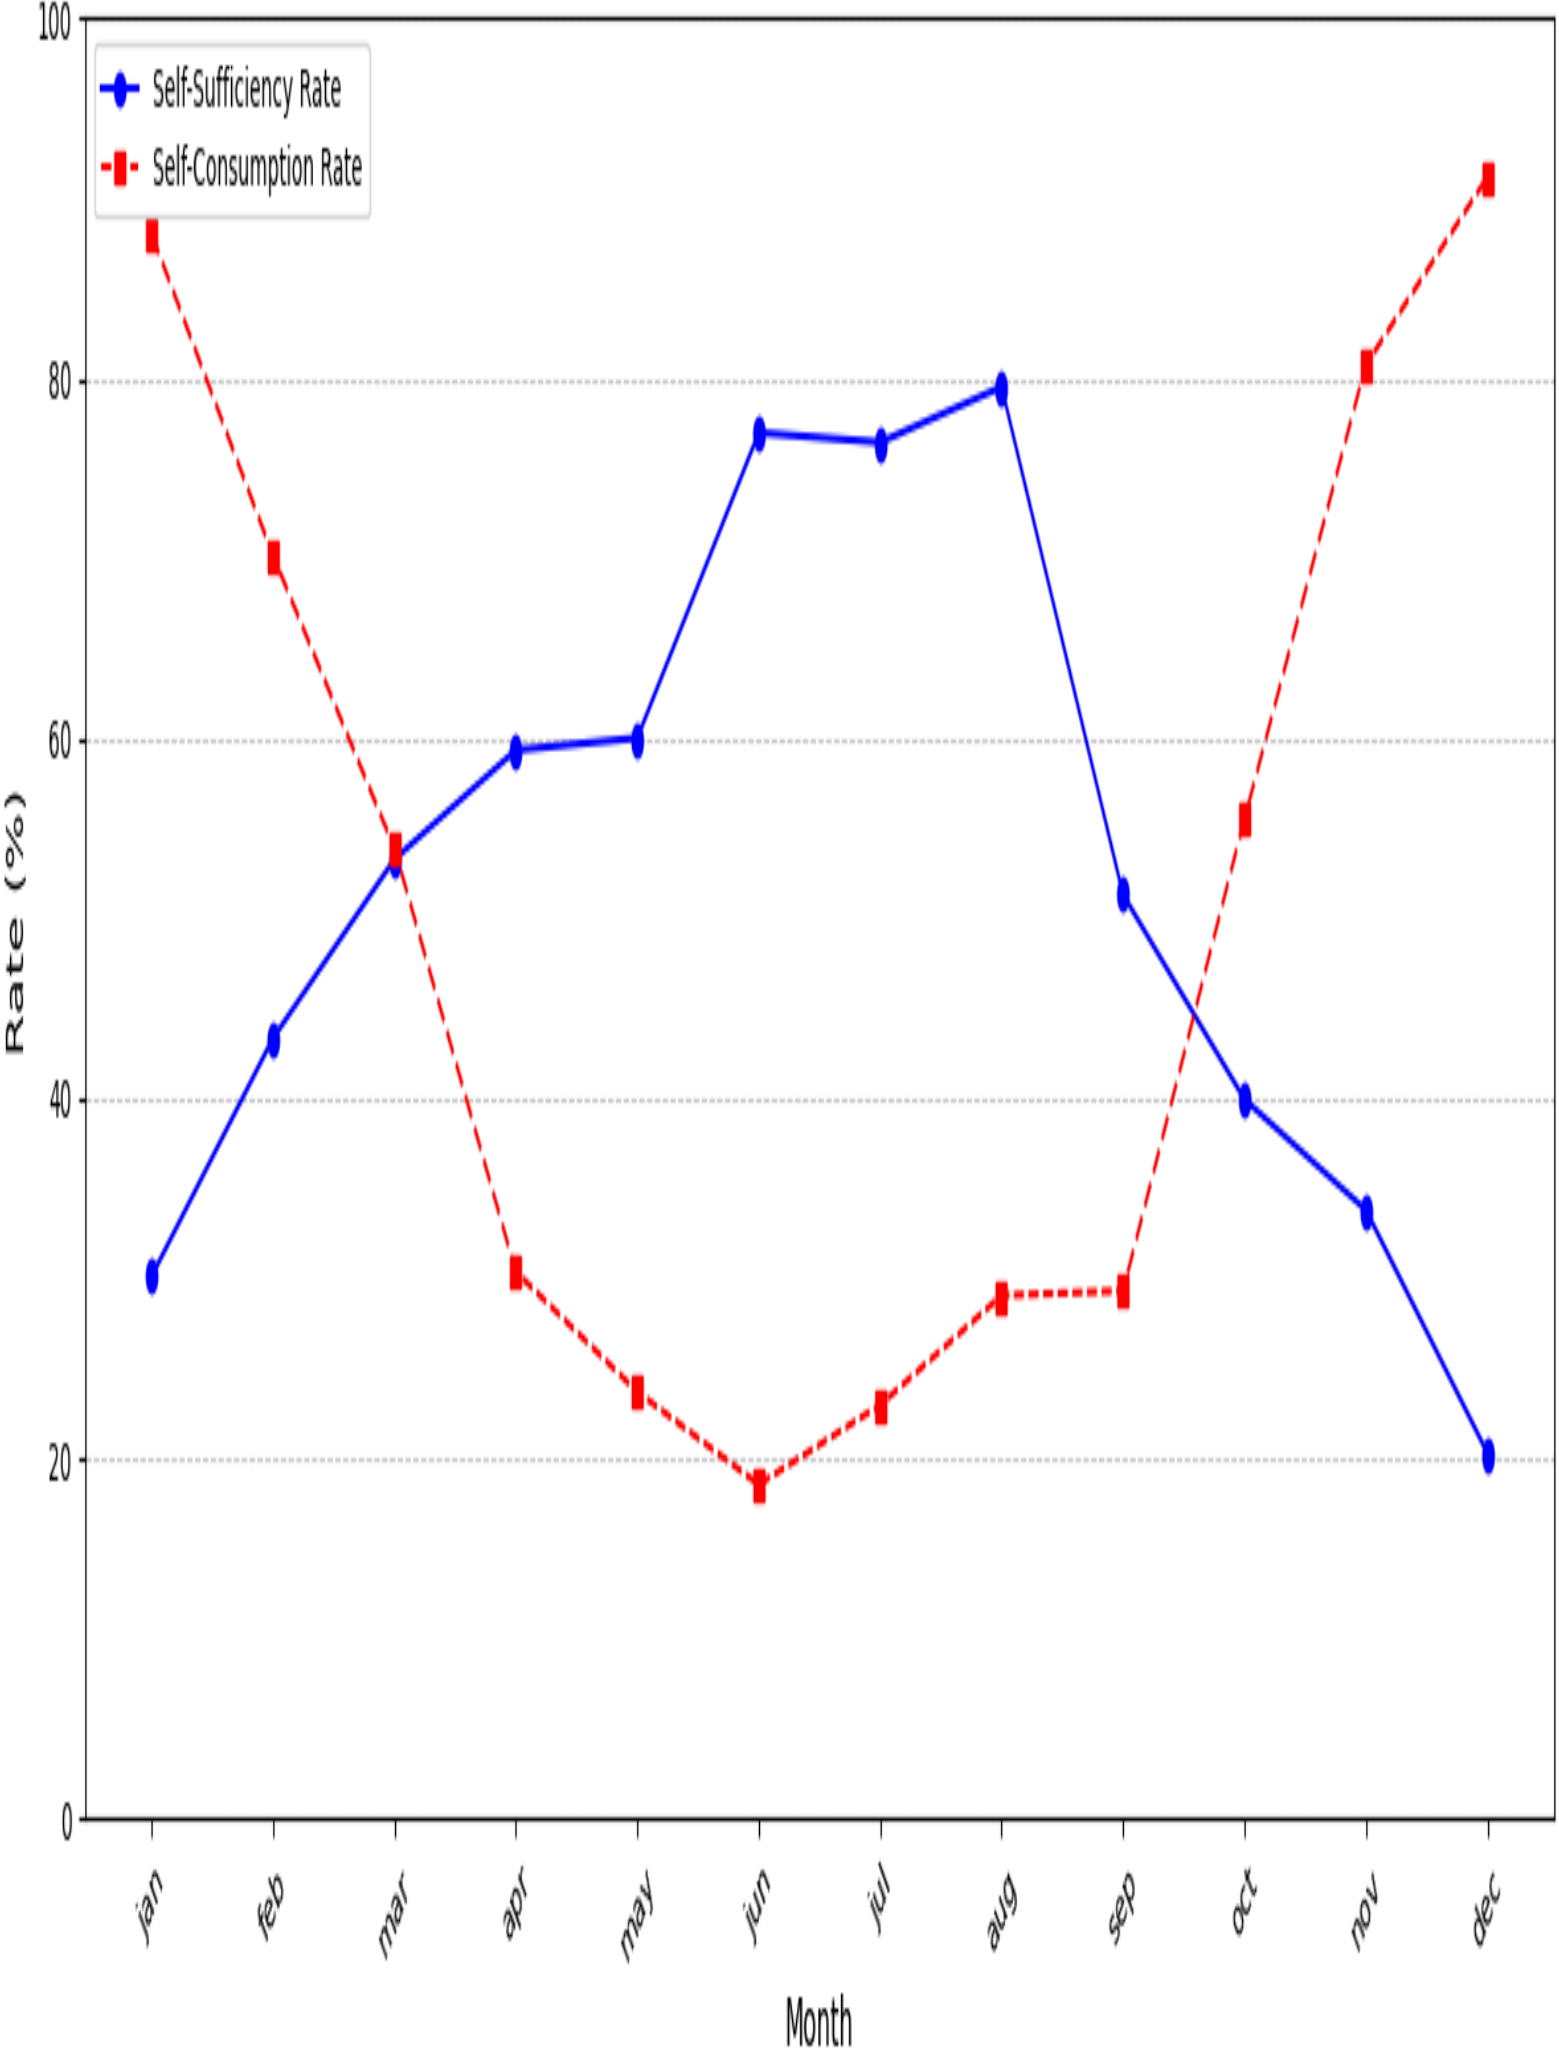

Grid and PV Interaction

Battery Performance

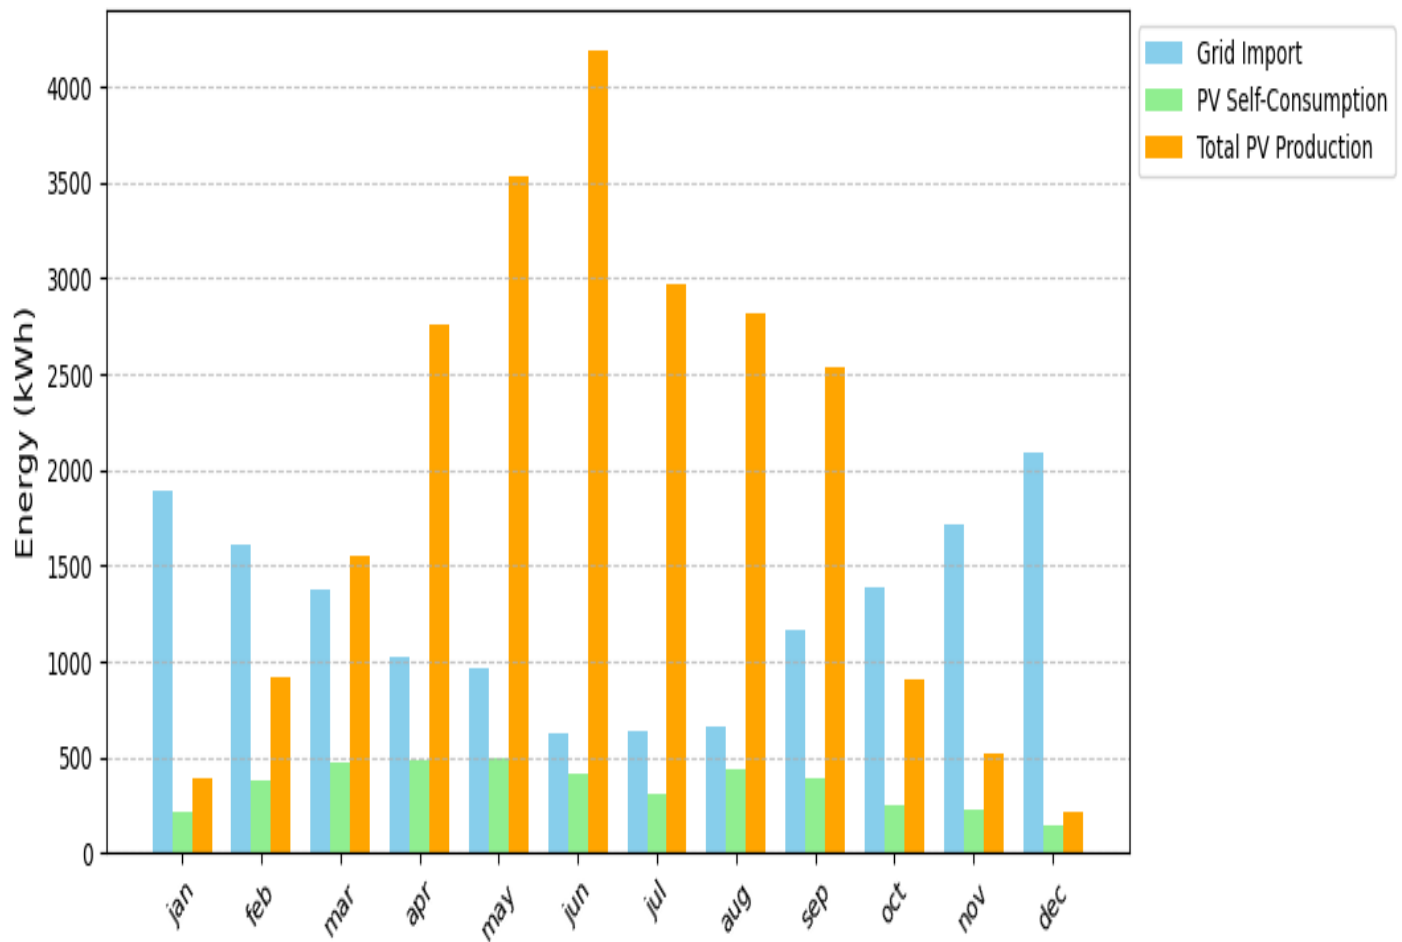

Scenario: 8kWh - Performance Rates

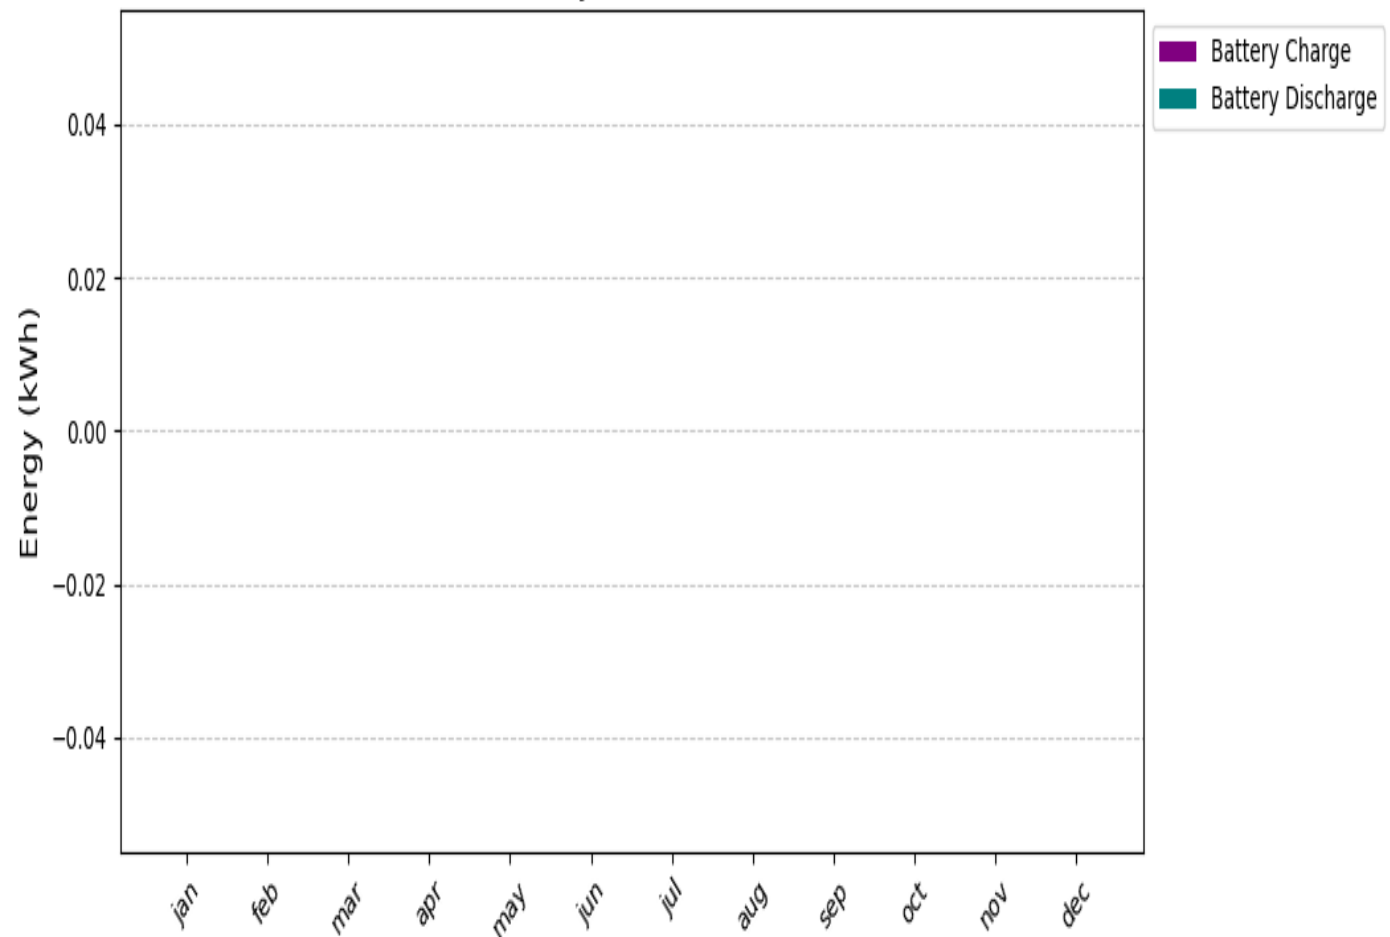

Scenario: PV_NoBattery - Energy Flows Analysis

Grid and PV Interaction

Battery Performance

Scenario: PV_NoBattery - Performance Rates
